A one-stop resource for trainees and Newly Qualified Teachers for developing their teaching skills within the core areas of the National Curriculum. This is also the companion book to *Primary Curriculum Teaching the Core Subjects*. With titles ranging from *Education in Egypt* to *Egypt in Transition* from Egyptian Religion to Egypt's Economic Potential, this set provides in one place a wealth of important reference sources from a wide range of authors expert in the field. **Education in Modern Egypt** Georgie D. M. Hyde, 2012-11-23 This study gives a comprehensive account of the evolution of the educational system in Modern Egypt set against the events of the last twenty-five years. From the Revolution of 1952 which saw the breakdown of the party system seen as sham democracy to the re-adoption of the party system in 1976 the Egyptian government has searched for an ideal system that is secular but not irreligious and benefitting from but not copying the western or eastern models. Professor Hyde has analysed the problems of the educational system, administrative, institutional, theoretical and practical, and related them to Egypt's urgent need to modernise the state and to improve the quality of life of her hitherto deprived masses. The deficiencies of the system are discussed with emphasis on the attempts to provide solutions mainly within the framework of reformed institutions. Informal and private education, literacy campaigns, women's aspirations and student welfare are all considered as are policies and plans for the immediate and long-term solutions of Egypt's problems. The analysis also takes into account socio-economic factors in post-Revolutionary Egypt which not only constitute instruments of change in Egyptian society but also provide the restraints which prevent the rapid translation of educational ideals into reality. First published 1978 Primary Education, 1926 Primary Education, Popular Educator, 1926 **Normal Instructor**, 1929 **Primary Schools** Inspectorate of Schools (England and Wales), 1987 **Egyptian Governorates Human Development Reports**, 2005 *Normal Instructor and Teachers World*, 1922 Dictionary of Theologians Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308, the year in which John Duns Scotus died. The dictionary encompasses the Catholic, Orthodox, Nestorian and Monophysite traditions, including information not previously available in English. Thoroughly indexed, the dictionary incorporates common variants of names and concepts which will help and direct the reader. The main criterion for inclusion has been contribution to the development of Christian theology. Sub-criteria by which that is measured include
