Moore, Bassel F. Salloukh, Marie-Joëlle Zahar, 2012 Focuses on the major factors shaping liberalization democratization in the Arab world as well as the role played by particular social groups **Jordan and the Arab Uprisings** Curtis R. Ryan, 2018-06-26 In 2011 as the Arab uprisings spread across the Middle East Jordan remained more stable than any of its neighbors Despite strife at its borders and an influx of refugees connected to the Syrian civil war and the rise of ISIS as well as its own version of the Arab Spring with protests and popular mobilization demanding change Jordan managed to avoid political upheaval How did the regime survive in the face of the pressures unleashed by the Arab uprisings What does its resilience tell us about the prospects for reform or revolutionary change In *Jordan and the Arab Uprisings* Curtis R. Ryan explains how Jordan weathered the turmoil of the Arab Spring Crossing divides between state and society government and opposition Ryan analyzes key features of Jordanian politics including Islamist and leftist opposition parties youth movements and other forms of activism as well as struggles over elections reform and identity He details regime survival strategies laying out how the monarchy has held out the possibility of reform while also seeking to coopt and contain its opponents Ryan demonstrates how domestic politics were affected by both regional unrest and international support for the regime and how regime survival and security concerns trumped hopes for greater change While the Arab Spring may be over Ryan shows that political activism in Jordan is not and that struggles for reform and change will continue Drawing on extensive fieldwork and interviews with a vast range of people from grassroots activists to King Abdullah II *Jordan and the Arab Uprisings* is a definitive analysis of Jordanian politics before during and beyond the Arab uprisings **The Arab World and Iran** Amin Saikal, 2016-06-20 This volume focuses on interpreting the changing domestic and regional dynamics in the Arab world and Iran Its chapters discuss an array of countries events actors and issues from an examination of the Arab Spring and the Tunisian democratic transition to an exploration of the role of Saudi Iranian geostrategic rivalry to the impact of ethnic and sectarian politics in Syria Iraq and across the region Chapters from expert contributors are organized into three parts The first section of the volume covers the aspects and dynamics of change in the Arab world The second examines the role of Islam Islamism Islamic governance and sectarian and ethnic politics in the region The third section focuses on Iranian domestic and regional politics Yet the theme of transition is constant throughout as this multidisciplinary book draws connections across countries and events to not only inform about the prevailing regional situation but also to invite readers

to draw their own conclusions as to the future of the Middle East Collectively the volume provides a fresh interpretation of the changing dynamics of the Arab world and Iran unpacking the complexities of the disputes conflicts rivalries failed goals and processes of change and development that have made the Muslim Middle East so turbulent directionless and perpetually contested by both regional and international actors New Authoritarian Practices in the Middle East and North Africa Francesco Cavatorta, Merouan Mekouar, Ozgun Topak, 2022-05-26 This book examines the new authoritarian practices MENA countries developed in the aftermath of the major uprisings in the region These include new forms of digital surveillance such as through internet social media and spyware new protest policing practices new forms of control over the judiciary civil society and media and new security and communication laws and state of emergencies The book also emphasises continuities with past authoritarian practices such as intimidation imprisonment torture extrajudicial killing and ill treatment of dissidents as well as other practices to suppress dissent and control activists opposition parties the judiciary and the media under new forms and through new combinations with digitally mediated practices It is by focusing on micro practices of repression that this book balances the more macro structural explanations of authoritarian persistence despite widespread social discontent and opposition The Age of Counter-Revolution Jamie Allinson, 2022-05-26 Examines the Arab Spring seen as a series counter revolutions rather than failed revolutions in six Arab countries *Economic Development and Political Action in the Arab World* M.A. Mohamed Salih, 2014-03-05 Analysis of North African revolt against authoritarianism known as the Arab Spring embraced reductionist explanations such as the social media youth unemployment and citizens agitations to regain dignity in societies humiliated by oppressive regimes This book illustrates that reductionist approaches can only elucidate some symptoms of a social problem while leaving unexplained the economic and political structures which contributed to it One outcome of quiescence resource based ethnic and sectarian conflicts and faulty development paradigm is deepened inequality and a wedge between winners and losers or affluence wealth and power vis vis poverty and hunger among humiliated jobless and hope less masses The book blends theories of development and transition to explain the complex factors which contributed to North Africans revolt against authoritarianism and its long term consequences for political development in the Arab World This timely book is of great interest to researchers and students in Development Studies Economics and Middle Eastern Studies as well as policy makers and democracy human rights and social justice activists in the Arab world Elites and Arab Politics Ian Kelly, 2020-06-11 This work explains elite behaviour in authoritarian systems and proposes why elites withdraw their support for the incumbent when faced with popular uprisings Building upon foundations drawn from institutional authoritarianism and synthesised with local context from the substantial scholarship on the Middle East and North Africa the book argues that the elite supporting autocrats come from three distinct cadres the military the single party and the personalist Each of these cadres possesses its own distinct institutional interests and preferences towards regime change Drawing on these interests the study constructs a theoretical framework that is

assessed through testing it against three variables Utilising an analytic narrative the research finds that the withdrawal of elite support is the consequence of long term processes that see distinct cadres marginalised First increased incumbent preference for personalist elements destabilises regimes as the military and single party cadres reconsider their positions Second neoliberal economic policies implemented via structural adjustment accelerated this personalisation as the state s withdrawal from the economy This in turn affected the ability of the military and single party elites to access patronage Finally the degree of military involvement in the formal political sphere contributes to shaping the nature of the system that replaced the incumbent regime under examination Building upon a wide range of literature the book argues that interest realisation determines whether or not elite actors support regime change in authoritarian systems The volume will be of interest to scholars researching politics social sciences and the Middle East

*Kazakhstan in the Making* Marlene Laruelle, 2016-11-21 Kazakhstan is one of the best known success stories of Central Asia perhaps even of the entire Eurasian space It boasts a fast growing economy at least until the 2014 crisis a strategic location between Russia China and the rest of Central Asia and a regime with far reaching branding strategies But the country also faces weak institutionalization patronage authoritarianism and regional gaps in socioeconomic standards that challenge the stability and prosperity narrative advanced by the aging President Nursultan Nazarbayev This policy oriented analysis does not tell us a lot about the Kazakhstani society itself and its transformations This edited volume returns Kazakhstan to the scholarly spotlight offering new multidisciplinary insights into the country s recent evolution drawing from political science anthropology and sociology It looks at the regime s sophisticated legitimacy mechanisms and ongoing quest for popular support It analyzes the country s fast changing national identity and the delicate balance between the Kazakh majority and the Russian speaking minorities It explores how the society negotiates deep social transformations and generates new hybrid local and global cultural references

**Revolution, Representation, and Authoritarianism** Sarah Wessel, 2021-11-29 This book examines Egypt s turbulent and contradictory political period 2011 2015 as key to understanding contemporary politics in the country and the developments in the Arab region after the mass protests in 2010 11 more broadly In doing so it breaks new ground in the

**The Arab Spring** Jason Brownlee,Tarek E. Plattner,2014-04 SchraederAlfred StepanMark TesslerFr d ric VolpiLucan WayFrederic WehreySean L Yom *Democracy and Authoritarianism in the Arab World* Nicola Christine Pratt,2007 Representing a departure from studies of Middle East politics and democratisation this book employs theories and concepts to the study of democracy and authoritarianism in the Arab world It examines the role of non state actors civil society in the maintenance of or resistance to the discourse that underpins authoritarian politics *The Lure of Authoritarianism* Stephen J. King,Abdeslam M. Maghraoui,2021-12-22 The works collected in *The Lure of Authoritarianism* consider the normative appeal of authoritarianism in light of the 2011 popular uprisings in the Middle East Despite what seemed to be a popular revolution in favor of more democratic politics there has instead been a slide back toward authoritarian regimes that merely gesture toward notions of democracy In the chaos that followed the Arab Spring societies were lured by the prospect of strong leaders with firm guiding hands The shift toward normalizing these regimes seems sudden but the works collected in this volume document a gradual shift toward support for authoritarianism over democracy that stretches back decades in North Africa Contributors consider the ideological socioeconomic and security based justifications of authoritarianism as well as the surprising and vigorous reestablishment of authoritarianism in these regions With careful attention to local variations and differences in political strategies the volume provides a nuanced and sweeping consideration of the changes in the Middle East in the past and what they mean for the future
