A Physical Education Casey Johnston, 2025-05-06 From the most visible woman writing about weightlifting today a profoundly engrossing memoir and manifesto about how lifting helped dissolve her allegiance to diet culture taught her to be at home in her body and led her to grow every kind of strength Elizabeth Greenwood In A Physical Education Casey Johnston recounts how she ventured into the brave new world of weightlifting leaving behind years of restrictive eating and endless cardio Woven through the trajectory of how she rebuilt her strength

and confidence is a staggering expos of the damaging doctrine spread by diet and fitness culture Johnston s story dives deep into her own past relationships with calorie restriction exercise and codependency As she progresses on her weightlifting journey she begins to eat to fuel her growing strength and her food cravings vanish Her physical progress fuels a growing understanding of how mainstream messaging she received about women s bodies was about preserving the status quo Previously convinced that physical improvement was a matter of suffering she now knows it requires self regard and patience A little pushing at a time adds up to the reawakening of parts of herself she didn t even know were there A Physical Education asks why so many of us spend our lives trying to get healthy by actively making our bodies weaker Casey Johnston is a voice for those of us who feel underdeveloped and unfulfilled in our bodies and are looking to come home to ourselves

Digital Feeling Adrienne Evans, Sarah Riley, 2023-03-03 This book offers a trailblazing account of postfeminist sensibility as a digital feeling that shapes how we understand the world around us. It explores how we feel in a world where the digital has become intertwined with our intimate relationships to ourselves and to others. The book develops a novel approach that draws on feminist theories of affect, emotion and structures of feeling to analyse the entanglements of the digital and the non digital and the public and the private and to show how good feeling shapes a contemporary moment that often leads us back to normativity and reproduces systemic inequality. This is achieved through several different digital media spheres including the Instagram account Barbie Savior, fitspo content, TikTok influencers and their 'Get Ready With Me' videos, the archive of hot men on TubeCrush and the intimacies of the internet cat, suggesting that each offers a snapshot of our current emotional landscapes.

Digital Wellness, Health and Fitness Influencers Stefan Lawrence, 2022-10-07 This book examines the phenomenon of digital guru media (DGM) – the self styled online influencers, life coaches, experts and entrepreneurs who post on the themes of wellness, health and fitness. It opens up new perspectives on digital leisure and internet celebrity culture and asks important questions about the social, cultural and psychological implications of our contemporary relationship with digital media. Drawing on cutting edge social theory, the book explores a wide range of contexts in which DGM intersects with digital leisure, from the health related learning of young people to the clean eating movement to the online lives of fitness professionals. It asks if digital and social media are problematic per se and explores the problems a turn to the Internet could be revealing about the lack of real world or analogue support, as well as potential solutions for our wellness, health and fitness needs and wants. Bringing together innovative, multi disciplinary perspectives, this book is fascinating reading for anybody with an interest in leisure studies, media studies, cultural studies, sociology or health and society.

Good Enough Eleanor Ross, 2020-12-31 Have you ever felt average? That you're not special or extraordinary, just normal? And that chances are society's obsession with always being the best and smashing life is setting us up for failure? Years of striving and pushing to be better than everyone else are breaking us. Fear of disappointment and our pursuit of someone else's definition of success tell us we're not enough. They tell us to work late, then work hard in the gym, overcommit, then post about selfcare on our painstakingly curated social media feeds. They tell us to push ourselves until we break all to prove our worth, to show we deserve our place.

But are we tolerating the lows to reach the fleeting highs and are we missing all the good stuff along the way Why are we programmed to live like this and is it society that needs to change not us One thing s for sure it s better to be average and happy than exceptional and miserable We re all good enough just as we are *Hiding in the Bathroom* Morra
