From the Laboratory to the Classroom Jared Horvath, Jason Lodge, John Hattie, 2016-07-22 Over recent years the field of Science of Learning has increased dramatically Unfortunately despite claims that this work will greatly impact education very little research makes it into teacher practice Although the reasons for this are varied a primary concern is the lack of a proper translation framework *From the Laboratory to the Classroom* aims to consolidate information from many different research disciplines and correlate learning principles with known classroom practices in order to establish explanatory foundations for successful strategies that can be implemented into the classroom It combines theoretical research with the diverse and dynamic classroom environment to deliver original effective and specific teaching and learning strategies and address questions concerning what possible mechanisms are at play as people learn Divided into five sections chapters cover A Framework for Organizing and Translating Science of Learning Research Motivation and Attention as Foundations for Student Learning Memory and Metamemory Considerations in the Instruction of Human Beings Science of Learning in Digital Learning Environments Educational Approaches for Students Experiencing Learning Difficulties and Developmental Characteristics of Gifted Children Brain Behaviour and Classroom Practice Forging Research Practice Relationships via Laboratory Schools This fascinating text gathers an international team of expert scientists teachers and administrators to present a coherent framework for the vital translation of laboratory research for educational practice Applying the Science of Learning framework to a number of different educational domains it will be an essential guide for any student or researcher in education educational psychology neuropsychology educational technology and the emergent field of neuroeducation

Roma Identity and Ritual in the Classroom Jana Obrovská, 2018-09-21 This book addresses the dynamics of interethnic relationships in ethnically mixed classrooms in the Czech Republic The classroom is a space in which the boundaries and meanings of facets of identity such as ethnicity class and gender are negotiated on a daily basis using rich ethnographic data the author grounds the analysis in a novel theoretical framework which uses the traditional concept of ritual to examine peer cultures Highlighting the perspectives of the students themselves their own peer cultures and the agency of the minority youth present in the classroom the book reinforces the idea that the dynamics of peer culture can be the scene for successful peer inclusion strategies as well as a stage for the reproduction of inequalities The author offers a rich array of data from post socialist classrooms which are almost invisible in the dominant debates surrounding ethnicity This revelatory book will be of interest and value to students and scholars of social anthropology the sociology of education and race and ethnicity in education as well as practitioners working with minority youth *Changing the Course of Failure* Sandra Stotsky, 2018-05-18 The basic purpose of this book is to help policy makers at all levels of government understand that 1 widespread adolescent underachievement is not susceptible to solution by educational interventions no matter how much money is allocated to public education and 2 there are unidentified educational and civic costs to focusing on low

achievement and to expecting public institutions of education for K 12 and college to solve a growing social problem Many policy makers seem to think that teachers schools are the primary cause of low achievement Educational institutions still cannot solve a non education caused problem and haven t done so for over fifty years despite all the public and private money that has been allocated The book concludes with suggested policies for addressing the damage to public education from gap closing standards and with suggested areas for policy making in order to change the current course of failure for many low achieving students
