

STM Summer Learning Packet Summer 2021

Student Entering Grade 8

STM has a long-standing practice of sending home a summer learning packet for students at each grade level. The purpose of these learning packets is to provide families with some guidance and structure for academic work over the summer months. Working on academic tasks over the summer will help students practice and reinforce essential skills, working to lessen the “summer slide” – or regression in skills – that is often seen when students disengage from all academic work for an extended period of time. This packet provides directions on some recommended Summer Reading and Summer Math activities. We are encouraging all students to complete the contents of this packet, and to turn it in to their teacher in the fall; however, this will not be a required and graded task this year.

READING

1. Read novels! Challenge yourself to read from a variety of genres. For books that you finish, complete the attached book report. Use the “Summer Read-Oh” chart from Ms. Watters to give you some additional direction and challenge!
Goal: At least one full length novel and completed book report form.
2. a. Read nonfiction articles! Look for in-print or online articles from newspapers, magazines, or other reliable news sources. These should be in the field of science or social studies (topics on the environment, economics, political or civic issues, technology... not entertainment or sports news).
b. Respond: Complete a two paragraph report for each article: a one-paragraph summary of the article’s information and a one-paragraph reflection of your perspective on the issue (your opinion, further questions, etc.).
Goal: Read and report on at least three articles.

MATH

1. Math Skills Packet: Complete the attached packet of skills. Show all work and mathematical steps (can be done on separate paper or on the handout if space allows). Check your answers with the given answer key.
Goal: Complete the packet, show your work, and check your answers for accuracy.
2. Remember that you can also pursue some additional skill building through online resources such as Khan Academy or IXL.
