

STEP BY STEP

WRITING A NOVEL

Writing a novel can be a long and difficult process. It can often be hard to know what steps to take. Below is an easy path to take when creating a novel.

Create characters, setting, & plot

Once you have an idea, create **detailed character sheets**, setting details, maps, and define your plot.

World Anvil is a great online tool for this!!

Write!

Write your novel straight through and don't go back to make changes! **Just WRITE!**

Rewrite a lot

Now, go back and **rewrite as much as you need**. Rewriting is a long process and it's up to you to decide when it's **perfect**.

Revise & edit

Revise & edit...on repeat. **Keep fixing up your novel** with the tips offered by your beta readers.

Have a Marketing Strategy

The best practice for this step is to **make your strategy while you're still writing your book**.

Perfect it here!

Market & Promote

Marketing & promotion is key for a successful book launch & sales! Make sure you stay on top of things!

Get inspired

The first step of any novel is to **get inspired**. Jot down book ideas in your journal, research ideas online, take part in **writing prompts**, etc.

Once you get an idea, **hone it**.

Make an Outline

Make an in depth outline, even going so far as to **outline every chapter and scene!**

Leave it alone

Leave your first draft alone for 3 days before going back to edit.

This will keep you from overediting or not editing enough.

Get Beta Readers

Reach out to people on social media or friends to read your book and **offer constructive criticism!**

Make a book cover

Once your book is done, **write a synopsis** and create a book cover. I like to use **Canva** for my covers.

Make sure you're adhering to your publishers guidelines!

Publish!

This is a tricky step for self-publishers, but places like **Ingram spark** make it easier!

Innovations and Advanced Techniques in Computer and Information Sciences and Engineering Tarek Sobh, 2007-09-04 Innovations and Advanced Techniques in Computer and Information Sciences and Engineering includes a set of rigorously reviewed world class manuscripts addressing and detailing state of the art research projects in the areas of Computer Science Computer Engineering and Information Sciences Innovations and Advanced Techniques in Computer and Information Sciences and Engineering includes selected papers form the conference proceedings of the International Conference on Systems Computing Sciences and Software Engineering SCSS 2006 which was part of the International Joint Conferences on Computer Information and Systems Sciences and Engineering CISSE 2006 All aspects of the conference were managed on line not only the reviewing

submissions and registration processes but also the actual conference. Conference participants, authors, presenters and attendees only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground breaking conference. The on line structure of this high quality event allowed academic professionals and industry participants to contribute work and attend world class technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds or time out of the office. Suffice to say that CISSE received submissions from more than 70 countries for whose researchers this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to versus a classic on the ground conference. The CISSE conference audio room provided superb audio even over low speed internet connections, the ability to display PowerPoint presentations and cross platform compatibility; the conferencing software runs on Windows, Mac and any other operating system that supports Java. In addition, the conferencing system allowed for an unlimited number of participants which in turn granted CISSE the opportunity to allow all participants to attend all presentations as opposed to limiting the number of available seats for each session.
