Steven*, 1985 **A History and Critique of Methodological Naturalism** Joseph B. Onyango Okello, 2016-07-21

Methodological naturalism is the thesis that only natural features can be factored into any legitimate explanation Moreover the thesis contends any attempt to explain natural phenomena by appealing to supernatural features is unscientific and therefore illegitimate This book argues that nothing inherently problematic afflicts possible appeals to supernatural agency in the attempt to explain select phenomena in nature Reputable philosophers of the ancient and medieval periods as well as prominent scientists of the early modern era invoked supernatural agency in their attempts to understand nature For them miraculous interventions in nature by a supernatural agent were not unreasonable However the super naturalistic worldview has been replaced by methodological naturalism The assumptions of two pivotal figures David Hume and Charles Darwin brought about this change This book shows that this change was motivated by unscientific means Hence the change itself remains inconsistent with the assumptions of methodological naturalism *A Philosopher's Journey* Steven M.
