

Speech-Language Pathology Evaluation

Client History

Background:

The client is a 7-year-old male named John Doe. He lives with his parents and older sister in a suburban area. He attends second grade at the local elementary school. There are no reported complications during pregnancy or birth. John's developmental milestones were achieved within typical ranges. No significant family history of speech or language disorders.

Medical History:

John has a history of mild asthma, which is well-controlled with medication. He had tympanostomy tube placement at the age of 4 due to recurrent ear infections but has had no recent issues with his ears.

Current Caregiver Concerns:

- Difficulty being understood by peers and adults.
- Struggles with following complex instructions.

Observations & Test Behaviors:

- Tends to stutter when excited or nervous.
- Parents are concerned about his limited diet and occasional choking incidents during meals.
