Teacher's Guide Brenda Van Dixhorn, 2012-09-30 This Teacher's Guide creates a common language for the school teachers and parents. With ideas and supporting materials for simple effective family night activities centered around a content area, teachers can easily encourage parent involvement. These fun and easy to implement activities help acquaint parents and students with the prekindergarten classroom, giving students a more cohesive learning environment.

Teacher's Guide Karen Gentry-Ederer, 2012-09-30 This helpful Teacher's Guide bridges the gap between school and home to give children a more cohesive learning environment by creating a common language for the school teachers and parents. With ideas and supporting materials for fun, easy to implement family night activities centered around a content area, teachers can easily encourage parent involvement and help seventh grade students succeed and achieve. *Classroom*

Community Builders Walton Burns, 2017-07-18 Students thrive in classrooms where they feel safe, welcome, and supported. Building a sense of community and teamwork is an effective means of facilitating student success. Burns skillfully blends community building activities with real classroom content, providing students with opportunities to practice language skills while acclimatizing to the classroom. While intended primarily for language arts and English as a second language classrooms, Burns's activities readily adapt to a range of disciplines and age groups. Beginning with a section on setting classroom and instructor expectations, Burns moves on to team building exercises focused on lesson content. His section on getting to know you activities is designed to foster a sense of belonging, while the five get to know your teacher exercises introduce you to your students in a fun, relaxed manner. Supported by information on material requirements, time limits, and resources, *Classroom Community Builders* provides handouts and worksheets available both within the book and online, offering new ideas to experienced and novice instructors alike.

Chart a New Course Rachelle Dene Poth, 2020 In researching the top skills students need to succeed in the future, author Rachelle Dene Poth identified the following ability to communicate, work in teams, think creatively, problem solve, and design. This book shows educators how to help students develop these essential skills through authentic, real-world learning experiences, building a pathway for the future of learning and work. In this book, educators will get the tools they need to design more purposeful learning experiences to drive student engagement and motivation, promote creativity in learning, model risk taking, and build classroom culture. Readers will discover how these activities can be woven into instruction rather than layered on existing curriculum, with ideas for getting started, suggestions in response to the statement "If you're doing this, try this instead," and lessons learned along the way. The book is filled with ideas for empowering students to build confidence in sharing their learning, become more responsible digital citizens, and evolve into classroom creators.
