Q 1: Martha's grandfather is depicted as a very strong and righteous person in the story 'The Scholarship Jacket'. Attempt a character sketch of her grandfather.

Martha's grandfather is probably the most important character in the story. In our mind he will be the winner once we finish reading the full story. His words "if you pay for it, it is not a scholarship jacket" made even the principal change his decision. He is somewhat a rich farmer owning a two-hundred acre ranch. He is seen in the story working in his field always. He is a sort of reserved type but a man of strong determination. Though he is uneducated he believes it is injustice to pay for a deserving award. So he strongly stands with his belief even when his granddaughter cries. Finally, his words win and Martha gets the award. When he hears both sad and happy news of Martha, he expresses almost the same reaction. When she tells him about her winning the jacket, he still doesn't express his rejoice through words. He just gives her a smile and a pat on her shoulder. As the proverb 'still waters run deep', some people will not show overtly their deep love and affection. Martha's grandfather is a man of this sort.

The Character Sketch as Philosophy Katie Ebner-Landy, 2025-10-21 An insightful exploration of the moral and political power of the character sketch in early modern Europe and the implications for our own relationship to this genre today In the fourth century BCE the philosopher Theophrastus a student of Aristotle composed thirty character sketches depicting ordinary Athenian vices idle chatter bad timing cowardice shamelessness and superstition among others Centuries later this enigmatic text known as the Characters was feverishly translated and imitated by early modern Europeans convinced of its moral and political importance Tracing this resurgence of the Theophrastan tradition Katie Ebner Landy sheds new light on the role of the character sketch as a philosophical tool Ebner Landy shows that the original Characters is best understood as a work of political philosophy designed to urge Athenians toward civic virtue It is this quality that made the text so resonant in early modern Europe where the character sketch again served as a means of encouraging ethical behavior and cultivating political knowledge During the English Civil War for example the character sketch was used to diagnose new political types such as the Roundhead and the Cavalier By the era of the Enlightenment however moral philosophy's long association with the character sketch began to break down A different approach to philosophy took hold one that spurned literary descriptions of manners mores and types and instead emphasized the principles underlying knowledge itself This shift in turn helped to drive a broader separation between literature and philosophy A revealing intellectual history The Character Sketch as Philosophy also encourages us to consider what literary description might contribute to ethics and political thought today and to think critically about the kinds of character sketches on which we still rely from the snob to the mansplainer

Profile Pieces Sue Joseph, Richard Lance Keeble, 2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile's historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma
