**Information Modeling Methods and Methodologies: Advanced Topics in Database Research** Krogstie, John, Halpin, Terry, Siau, Keng, 2004-08-31 The purpose of this book is to disseminate the research results and best practice from researchers and practitioners interested in and working on modeling methods and methodologies Though the need for such studies is well recognized there is a paucity of such research in the literature What specifically distinguishes this book is that it looks at various research domains and areas such as enterprise process goal object orientation data requirements ontology and component modeling to provide an overview of existing approaches and best practices in these conceptually closely related fields Note This book is part of a series entitled Advanced Topics in Database Research

**Advanced Topics in Artificial Intelligence** Norman Foo, 2007-12-07 The 12th Australian Joint Conference on Artificial Intelligence AI QQ held in Sydney Australia 6 10 December 1999 is the latest in a series of annual regional meetings at which advances in artificial intelligence are reported This series now attracts many international papers and indeed the constitution of the program committee reflects this geographical diversity Besides the usual tutorials and workshops this year the conference included a companion symposium at which

papers on industrial applications were presented. The symposium papers have been published in a separate volume edited by Eric Tsui. Ar99 is organized by the University of New South Wales and sponsored by the Australian Computer Society, the Commonwealth Scientific and Industrial Research Organisation (CSIRO), Computer Sciences Corporation, the KRRU group at Griffith University, the Australian Artificial Intelligence Institute, and Neuron Works Ltd. Ar99 received over 120 conference paper submissions, of which about one third were from outside Australia. From these 39 were accepted for regular presentation and a further 15 for poster display. These proceedings contain the full regular papers and extended summaries of the poster papers. All papers were refereed mostly by two or three reviewers selected by members of the program committee, and a list of these reviewers appears later. The technical program comprised two days of workshops and tutorials followed by three days of conference and symposium plenary and paper sessions.

Leveraging Advanced Technologies: Business Model Innovation and the Future Bahaaeddin Alareeni, Allam Hamdan, 2025-07-30. **Bioinspired Strategic Design** Daniel J. Finkenstadt,Tojin T. Eapen,2024-07-08 Organizations are commonly thrust into hostile operating environments where they are required to make strategic decisions that involve significant and costly tradeoffs Such hostile environments may be endemic such as an economic recession or idiosyncratic such as a predatory action by an adversary Many features of such hostile environments parallel those of living organisms that also demonstrate fine tuned strategies to improve their survivability under adverse conditions How can organizations use these bioinspired strategies to survive and even potentially innovate This book shows that the same three capabilities essential for the survival of living organisms in harsh environments efficiency resilience and prominence are also critical for organizations in their process of navigating through their own hostile environments Throughout the book the authors provide organizational executives with a systematic framework for thinking about strategic decision making in a hostile environment leaning on analysis of real world cases to draw out ontologies and methods for guiding their teams through disruptions change management innovation and process improvements In the first part organizations are provided with a systematic approach to analyzing three survivability influences forces resources and observers and their interrelationships While all three influences are active across all organisms and organizations the exact nature of their interrelationship and the significance of each influence are unique to every organism or organization The framework helps organizations nail down the specific features of their operating environment that can help or hinder survivability by analyzing the three influences

Organizations can respond to external influences by developing three pronged capabilities efficiency resilience and prominence ERP that respond to the three survivability influences Organizations often struggle with identifying the appropriate strategies to apply under different conditions Fortunately nature provides several mechanisms that can be analogically applied to guide business strategies The book contains many illustrations and examples of strategic principles observed among living organisms that can help an organization develop ERP capability Finally the book introduces seven strategic design heuristics Combination Elimination Separation Segmentation Replication Dynamics and Maximization observed in a living system that can be flexibly utilized to generate ideas to achieve strategic ends      **Advanced Topics in**
