objective is to free the reader from reading any interpretations into the text and let the text speak for itself. You need to see the structure outline clearly so that you do not read your own ideas into the text. In this sense, as Dr Johnson Philip points out, there are no interpretations and expositions of the passages. However, as Dr Johnson Philip points out, it is an excellent TOOL for expositors all the same. NOTE: This edition has a linked Table of Contents and has been beautifully formatted for easy navigation. This is a Bible study method called Block Sentence Diagramming. I learned this sentence diagramming approach to study the Bible in the seminary and in the last 25 years I have been using this to prepare all my sermons and Bible studies. The Following is a Review Recommendation from Dr Johnson C Philip TOP 1000 Amazon REVIEWER on December 10 2013 GOOD TOOL FOR EXPOSITORS. The Bible is a book written over a span of 1500 years by almost 40 writers who hailed from different cultures and language groups. Thus the 66 books of the Bible need to be analyzed in their own culture language and context if one has to understand the message clearly. This is easier said than done. Many methods have come up to understand the message of the Bible objectively and each method contributes something or other to the cumulative task of clarifying the message. The Sentence block diagram method is one of these approaches which yields fascinating insights into what was said. More so because this type of analysis clearly shows sentence connections in our language which connection might not be obvious immediately. The only weakness of the book is that while it shows the result of analysis it does not contain any interpretation of the text. Thus this book will be useful only for those who wish to get the analyzed text but not for those who are looking for a Bible Exposition. I want to thank Dr Johnson Philip for this honest review.
