## **Blood Is Thicker Than Color:**

**Race, Whiteness, and Education** Zeus Leonardo, 2009-05-12 In the colorblind era of Post Civil Rights America race is often wrongly thought to be irrelevant or at best a problem of racist individuals rather than a systemic condition to be confronted Race Whiteness and Education interrupts this dangerous assumption by reaffirming a critical appreciation of the central role that race and racism still play in schools and society Author Zeus Leonardo s conceptual engagement of race and whiteness asks questions about its origins its maintenance and envisages its future This book does not simply rehearse exhausted ideas on the relationship among race class and education but instead offers new ways of understanding how multiple social relations interact with one another and of their impact in thinking about a more genuine sense of multiculturalism By asking fundamental questions about whiteness in schools and society Race Whiteness and Education goes to the heart of race relations and the common sense understandings that sustain it thus painting a clearer picture of the changing face of racism

Tracking Color in Cinema and Art Edward Branigan, 2017-10-30 Color is one of cinema s most alluring formal systems building on a range of artistic traditions that orchestrate visual cues to tell stories stage ideas and elicit feelings But what if color is not or not only a formal system but instead a linguistic effect emerging from the slipstream of our talk and embodiment in a world This book develops a compelling framework from which to understand the mobility of color in art and mind where color impressions are seen through and even governed by patterns of ordinary language use schemata memories and narrative Edward Branigan draws on the work of Ludwig Wittgenstein and other philosophers who struggle valiantly with problems of color aesthetics contemporary theories of film and narrative and art historical models of analysis Examples of a variety of media from American pop art to contemporary European cinema illustrate a theory based on a spectator s present time tracking of temporal patterns that are firmly entwined with language use and social intelligence
