Main features

Simple Operation—Works Like a Compact Effects Processor

Each effect is controlled with a dedicated knob. Intuitive operation, similar to that of compact effects processors, lets you make changes to tones directly.

Powerful COSM Drive Sound

Roland's original "COSM" modeling technology lets you perform with a wide variety of powerful distortion effects, from classic vintage sounds, to original distortion sounds.

COSM (Composite Object Sound Modeling)

Composite Object Sound Modeling (COSM) is Roland's innovative and powerful sound modeling technology. COSM analyzes the many factors that make up the original sound, such as the electrical and physical characteristics of the original, and then produces a digital model that can reproduce the same sound.

Multi-Function Expression Pedal

The ME-50 is equipped with an expression pedal that gives you control over six different specialized pedal effects. It can also be switched for use as a volume pedal.

Memory Function

You can store up to 30 original tones you have created. You can also use the pedals in "Memory mode" to call up stored tones instantly.

AUX IN Jack

The AUX IN jack makes it easy to practice along with CDs, MDs, and other input.

Battery-Powered Operation

The ME-50 can be powered in two ways, with (6) AA batteries or by using the AC adaptor (optional).

Laugh out Loud: A User's Guide to Workplace Humor Barbara Plester, Kerr Inkson, 2018-09-24 This book is the first ever authoritative work on the use and management of humor in the workplace. It is a practical guide for everyone involved: the humorists, jokers, the targets, sometimes victims, the observers, audience, and most of all, the managers who have to set the tone and encourage, control, and manage humor. Humor is part and parcel of every workplace. However, while it usually demonstrates and fosters a united, happy workforce, it can at times be deeply damaging and divisive. The authors, academics with vast organizational experience and a research-based understanding of humor at work, bring together state-of-the-art knowledge of the topic, making it fun, accessible, and readable for all humor participants. The topics include how humor works, humor cultures in organizations, the many forms of workplace humor, and their pros and cons; humor rituals at work; digital humor; workplace jokers; the 21st-century issue of political correctness; and both the bright side of humor assisting positive cultures, making work fun, and its dark side where humor offends and humiliates. With over 60 real-life illustrative stories of workplace humor, a self-completion questionnaire to measure the Humor Climate in your organization, end-of-chapter takeaways, and an end-of-book summary advocating best practice, the book is a fun, how-to-do-it guide that will both inform and entertain.

A Cry For Help! Majid Al Suleimany, 2009-12-17 Addressing the increased extremism, fundamentalism, and lack of tolerance and forbearance in the Arab workforce, author Majid Al Suleimany presents *A Cry for Help: Arabian Management Services Context and Perspectives*. In three parts, *A Cry for Help* concentrates on the management styles and aspects of companies located in the Arabian Gulf Cooperation Council, which encompasses Oman, United Arab Emirates, Qatar, Kuwait, Bahrain, and Saudi Arabia. It discusses the growing radicalization of local staff, misbehaving expatriates, unhappy dissatisfied staff, poor treatment of staff, especially by European/Western staff, increasing extremism and fundamentalism in offices, sensitive related issues. In *A Cry for Help*, Suleimany, a management expert, focuses on what is particular about the type of Arab management, its context, and perspectives, and what is peculiar, special, or particular to that work in the context and comparison to management styles of other nations. Using personal experiences, examples, and illustrations, Suleimany exposes the new reality and truth and moves away from the trend and approach of hiding issues and problems.
