Enhanced Palliative Care: A handbook for paramedics, nurses and doctors Neil Pryde, 2022-01-11 Specifically designed to enhance your knowledge and skills within generalist palliative care this informative textbook provides a comprehensive overview of the principle areas you may encounter whilst working with adult palliative and end of life patients and their families The development of the text has been backed by

Macmillan Cancer Support and each chapter has been written by a range of specialist and generalist authors. The topics covered include approaches to palliative care and symptom management in a wide range of conditions and populations with chapters linked to case studies to encourage interactive learning and understanding. Communication skills are also highlighted to help aid confidence when engaging in open and difficult conversations. The text is in line with Scottish Palliative Care Guidelines and the NES Framework for Palliative and End of Life Care. The book may either be used as course reading for relevant training programmes such as the Enhanced Palliative Care course as well as by healthcare professionals hoping to develop their skills and practice. It is aimed at anyone involved in management and prescribing within non-specialist palliative care both in hospitals and in the community including paramedics, nurses, doctors, pharmacists and other key health professionals.

Child and Adolescent Behavioral Health Edilma L. Yearwood, Geraldine S. Pearson, Jamesetta A. Newland, 2021-02-23

Research has shown that a range of adult psychiatric disorders and mental health problems originate at an early age yet the psychiatric symptoms of an increasing number of children and adolescents are going unrecognized and untreated. There are simply not enough child psychiatric providers to meet this steadily rising demand. It is vital that advanced practice registered nurses (APRNs) and primary care practitioners take active roles in assessing behavioral health presentations and work collaboratively with families and other healthcare professionals to ensure that all children and adolescents receive appropriate treatment. **Child and Adolescent Behavioral Health** helps APRNs address the mental health needs of this vulnerable population providing practical guidance on assessment, guidelines, intervention and treatment strategies, indications for consultation, collaboration, referral and more. Now in its second edition, this comprehensive and timely resource has been fully updated to include DSM 5 criteria and the latest guidance on assessing, diagnosing and treating the most common behavioral health issues facing young people. New and expanded chapters cover topics including eating disorders, bullying and victimization, LGBTQ identity issues and conducting research with high risk children and adolescents. Edited and written by a team of accomplished child psychiatric and primary care practitioners, this authoritative volume provides state-of-the-art knowledge about specific psychiatric and behavioral health issues in multiple care settings. Reviews the clinical manifestation and etiology of behavioral disorders, risk and management issues and implications for practice, research and education. Offers approaches for interviewing children and adolescents and strategies for integrating physical and psychiatric screening. Discusses special topics such as legal and ethical issues, cultural influences, the needs of immigrant children and child and adolescent mental health policy. Features a new companion website containing clinical case studies to apply concepts from the chapters. Designed to specifically address the issues faced by APRNs, **Child and Adolescent Behavioral Health** is essential reading for nurse practitioners and clinical nurse specialists, particularly those working in family pediatric, community health, psychiatric and mental health settings. Second Place in the Child Health Category 2021.
