Immersion Education in the Early Years Tina Hickey, Anne-Marie de Mejía, 2017-10-02 Worldwide more parents are opting for immersion pre schooling for their children in order to benefit from its linguistic educational and cultural benefits This immersion can be either bilingual or monolingual aimed at early second language learning or at language maintenance offering minority language children mother tongue support and enrichment This book examines some of the key issues and policy concerns relating to immersion education in the early years The term itself can be difficult in some political contexts as can the differing outcomes noted by studies comparing monolingual programmes and bilingual programmes for minority language children The importance of training in immersion methodology for educators is discussed as is the need to adapt preschool pedagogical practices to the immersion

context in order to provide optimal input for young language learners One of the most pressing discussions surrounds differentiated provision ensuring that the varying needs of children with language impairment typical second language learners and mother tongue speakers with significant socioeconomic or linguistic disadvantages are all met Overall the book explores the challenges currently facing the sector particularly with regard to training and professional development for practitioners and the provision of appropriate materials in less widely used languages Given the documented benefit of high quality immersion pre schooling this book fulfils an urgent need to increase the recognition of the sector This book was published as a special issue of International Journal of Bilingual Education and Bilingualism **Coordinated Compliance** Review Training Guide California Department of Education, 2004-04-08 A Look at Kindergarten Through Grade Six in California Public Schools Faye Ong, John McLean, Cynthia Gunderson, 2011 The publication is based on A look at kindergarten through grade six in California public schools and the common core state standards This online publication contains all content areas and is attached as a CD ROM for reference p v Latino Education Pedro Pedraza, Melissa Rivera, 2006-04-21 This volume represents the work of the National Latino a Education Research Agenda Project NLERAP It conceptualizes and illustrates the theoretical framework for the NLERAP agenda and its projects Beyond Bilingual Education Alec Ian Gershberg, Anne Danenberg, Patricia Sanchez, 2004-10 The United States has a long record of ambivalence toward recent immigrants Nowhere is this love hate relationship more evident than in the public school systems of high immigration states like California where pro and anti immigration advocates have waged a long running battle over bilingual education versus English immersion programs Unfortunately this fierce political debate does not always acknowledge day to day reality in the schools and the policies that result may ultimately hinder the schools and students they intend to help Beyond Bilingual Education cuts through the politics offering a statistical portrait of English language learners in five large California school districts and highlighting the results of more than 120 interviews conducted with teachers school administrators and community service providers about the challenges facing recent immigrants and the schools that serve them This combined approach yields essential intelligence for policymakers advocates and administrators seeking to escape the trap of immigration politics It is a vital perspective because how our schools receive treat and educate these future workers will directly affect our country's economic and social health and progress English Learners in California Schools Christopher Jepsen, Shelley De Alth, 2005 **Recommendations Made and Not Fully Implemented After One Year** California.
