Centurion Enslaved Transformation:

True to Our Native Land, Second Edition Brian K. Blount, Gay L. Byron, Emerson B. Powery, 2024-10-22 *True to Our Native Land* is a pioneering commentary on the New Testament that sets biblical interpretation firmly in the context of African American experience and concern. In this second edition, the scholarship is cutting edge, updated and expanded to be in tune with African American culture, education, and churches. The book calls into question many canons of traditional biblical research and highlights the role of the Bible in African American history, accenting themes of ethnicity, class, slavery, and African heritage as these play a role in Christian Scripture and the Christian odyssey of an emancipated people. **The People's New Testament Commentary** M. Eugene Boring, Fred B. Craddock, 2010-01-25 M. Eugene Boring and Fred B. Craddock present this new one-volume commentary on the New Testament, writing from the fundamental conviction that the New Testament is the people's book. Boring and Craddock examine the theological themes and messages of Scripture that speak to the life of discipleship. Their work clarifies matters of history, culture, geography, literature, and translation, enabling people to listen more carefully to the text. This unique commentary is the perfect resource for clergy and church school teachers who seek a reference tool midway between a study Bible and a multivolume commentary on the Bible. **Matthew and the Roman Military** John E. Christianson, 2022-05-05 This book addresses the ways in which the Gospel of Matthew portrays and negotiates Roman military power. John E. Christianson argues that Matthew, writing in the years following the Jewish War, offers strategies such as avoidance, accommodation, non-violent resistance, mimicry, and dreams of divine retribution and eschatological fulfillment to help his audience cope with life in Roman Syria. With an eye toward the ways that military structures and networks of social power functioned to increase imperial control over people and territory, Christianson shows how Matthew's strategies include ways to help his audience negotiate potentially dangerous encounters with Roman military personnel. This includes texts that address the possibility of state-sanctioned violence by Roman-aligned rulers, Herod and Antipas; the abuse of requisitioned labor in Roman *angaria*; Jesus' response to the direct request of a centurion with opaque motivations; a vision of retribution on Roman eagles by the eschatological Son of Man; and soldiers' response to Jesus' death and resurrection as a prelude to divine overthrow of Roman military power. In all cases, this book demonstrates how interpretation of Matthew's narrative must account for the pervasive presence of the Roman military in the ancient world. **The Fortney Encyclical Black History** Albert Fortney Jr., 2016-01-15 *The Encyclical Black History* has been created for the critical and lack of vital Afrocentric multi-curriculum text in urban school systems and is a necessity for African Americans. This book was created with careful and serious attention to biographical names that identifies history, culture, as well as biblical characters. The reason why of this encyclical history can be explained with the facts and proof evidence of the following: The point that has socio-psychological implications at the unconscious as well as the conscious level is the great little white racist lie, seen long enough, becomes the truth like portraying a white Jesus Christ who

was a black man Dr Alvin Poussaint a Black psychiatrist associated with Harvard University and others have observed and explained the most tragic part of all of this is that the African American has come to form his self image and self concept on the basis of what white racists have laid down as a guide or prescribed Therefore black men and women learn quickly to hate themselves and each other more than their white oppressor There is almost infinite evidence that racism has left almost irreparable scars on the psyche of Afro Americans that burden with an unrelenting painful anxiety that drives the psyche to reach out for a sense of identity and self esteem Poussaint and others say that black children especially learn to hate themselves at very early ages Studies reveal their preference for white dolls over black ones One study reported that black children in their drawings tend to show blacks as small incomplete people and whites as strong and powerful To conclude in western color symbolism white is positive and black negative Many people might ask why the contributions of Africa should be included in American curriculum Is because they bleach and still rob black history and culture with black pictured as white that lie leaves us mentally dead angry and without purpose of where we are going Human culture is the product of all humanity not the possession of a single racial or ethnic group Afro centric Multicultural educations major aim is to close the gap between Western ideals of equality justice and practices that contradict these ideas Stereotype people of color and people who are poor have just about no opportunities to become free of perspectives that are monoculture that devalue African culture victimize them mostly having an inability to fully function effectively in society Many of these problems could be miraculously remedied with astonishing results if explained of black scientific achievements which occurred in black Africa There are also white African Americans living in the U S A besides black African Americans should make the distinction Carl Sandburg 1979 related a dialogue between a white American and an American Indian which illustrates the need for multicultural education The white man drew a small circle in the sand and told the red man This is what the Indian knows and drawing a big circle around the small one this is what is what the white man knows The Indian then took the stick and swept an immensely big ring around both circles and said this is where the white man and the red man knows nothing
