*Active Defense* M. Taylor Fravel,2020-12-08 Since the 1949 Communist Revolution China has devised nine different military strategies which the People s Liberation Army PLA calls strategic guidelines What accounts for these numerous changes Active Defense offers the first systematic look at China s military strategy from the mid twentieth century to today Exploring the range and intensity of threats that China has faced M Taylor Fravel illuminates the nation s past and present military goals and how China sought to achieve them and offers a rich set of cases for deepening the study of change in military organizations Drawing from diverse Chinese language sources including memoirs of leading generals military histories and document collections that have become available only in the last two decades Fravel shows why transformations in military strategy were pursued at certain times and not others He focuses on the military strategies adopted in 1956 1980 and 1993 when the PLA was attempting to wage war in a new kind of way to show that China has

pursued major change in its strategic guidelines when there has been a significant shift in the conduct of warfare in the international system and when China's Communist Party has been united. Delving into the security threats China has faced over the last seven decades, *Active Defense* offers a detailed investigation into how and why states alter their defense policies.

China's Nuclear Future Paul J. Bolt, Albert S. Willner, 2006. Provides cutting edge empirical research on a difficult strategic question while also situating the issue within a nuanced discussion of recent Chinese history and intellectual traditions. China's Nuclear Future contributes much to a new understanding of China's nuclear policy, past, present, and future.

Andrew Oros, Washington College. In the face of significant changes in the contemporary geopolitical environment, China's longstanding policy of maintaining a minimal nuclear stockpile may also be shifting. China's Nuclear Future provides a comprehensive overview of both the evolution of China's nuclear policy and the strategic implications of current developments. The authors examine a full range of issues from China's rising economic fortunes to the impact of the U.S.-led war on terror. Their assessment of the drivers and constraints that are transforming China's nuclear posture is key to understanding not only the country's possible nuclear futures but also the broader issue of its role in world politics.

Paul J. Bolt is professor of political science at the U.S. Air Force Academy. Albert S. Willner, Colonel, U.S. Army, taught in the Department of Social Sciences at the U.S. Military Academy in 2000. 2004, at present, he is pending assignment as the Chief of the Liaison Affairs Section at the American Institute in Taiwan.
