Cpc H Questions 2014:

Achieving Food Security in China Zhang-Yue Zhou, 2017-05-18 China's food security has never failed to attract the public's attention. Feeding China's large population has always been a huge challenge. The latest large scale famine took place in 1958-62 during which approximately 37 million people died of starvation. However, since the early 1980s, China's food availability has improved drastically. The important question is then: has China achieved its food security? Although China's food availability has significantly improved, it has not achieved a high level of food security due to the lack of progress in several other important dimensions of food security. The book examines China's food security practices in the past six decades, explores the root causes that led to food shortages or abundances, and elaborates on the challenges that China has to deal with in order to improve its future food security. China's quest for food security serves as a valuable lesson for many other countries to learn through China's experiences and to better manage their food security in the future. The book also draws attention to the fact that China's food security status has a huge impact on the global community, and hence global collaboration is a mutually beneficial approach.

Standardization of Financial Reporting and Accounting in Latin American Countries Lourenço, Isabel, Major, Maria, 2015-07-01 Accounting has often been described as the language of business. As the increasing competition of overseas markets begins to affect even the smallest local companies, many more business professionals must become fluent in accounting principles and practice. *Standardization of Financial Reporting and Accounting in Latin American Countries* highlights the recent move to International Financial Reporting Standards (IFRS) and addresses some of the concerns raised due to cultural differences and the level of enforcement of these standards in separate countries. Describing the evolution of both financial and managerial accounting due to the adoption of IFRS, this book is an essential reference source for both students and seasoned professionals in the fields of accounting, finance, and related management fields, especially those with an international emphasis.

China's Solution to Its Ethno-national Issues Shiyuan Hao, 2019-10-11 This book focuses on the global issue of ethnic problems and examines the theory and practice of how China addresses its ethnic problems from a macro perspective following the guidelines formulated by the working conference on ethnic affairs of the Central Committee of Chinese Communist Party in 2014. Based on comparative and empirical studies, it also analyzes specific solutions to ethnic problems in contemporary China, such as how the country has succeeded in redressing material inequalities among different ethnic groups, allowing these groups to share in the country's development.
