

SCIENCE

SUPPLEMENTARY LEARNING MATERIAL – LEARNING ACTIVITY SHEET

Grading Period:	FIRST GRADING	Week:	WEEK 7 to 8
Most Essential Lear	Describe the possible causes of plate movement; Enumerate the lines of evidence that support plate movement		

CONCEPT:

Convection Current in the Water

CONVECTION CURRENT

Less dense particles rise while denser particles sink. When particles are heated or become hot, they become less dense. When particles are cooled or become cold, they become denser. This means that hot particles rise while cold particles sink.

When water is heated, the water particles close to the heat source will rise. The water particles above or away from the heat source which are cold will sink. As the hot water particles rise they become farther and farther from the heat source and some of the heat slowly dissipate causing them to become cold and sink towards the heat source.

As the cold water particles sink they become closer and closer to the heat source and slowly gain heat. This causes them to rise.

The process continues into a cycle of rising and sinking of particles as long as there is a heat source. This process is known as **CONVECTION CURRENT**.

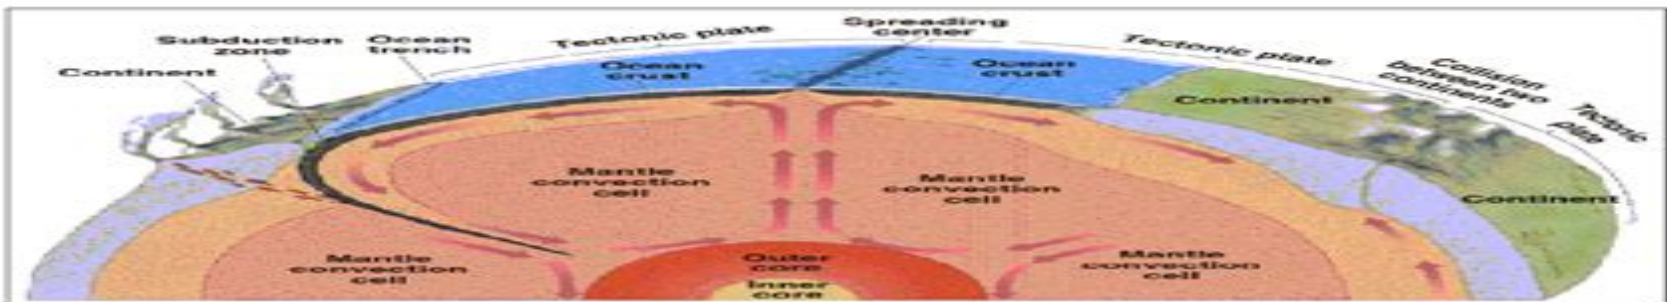

CONVECTION CURRENT IN THE EARTH'S MANTLE

The convection current explained above is the same with the convection current happening in the Earth's mantle. The only difference is that instead of water particles, the magma in the mantle is the one that is rising and sinking brought about by the heat from the Earth's core, which is the heat source.

As the hot and less dense magma rises in the mid-ocean ridge, it spreads out forcing the lithospheric plates to separate and also new crust is formed. This point indicates the divergent plate boundary where ridges or rift valleys are formed. Also, this point is where the seafloor spreads.

As the plates spread, the formed crust slowly cools down and becomes denser. As they meet a crust that is less dense, the denser crust is pushed against the less dense crust. This causes subduction to occur where the denser crust sinks under the less dense crust. This point indicates the convergent plate boundary where trenches and volcanic arcs are formed. As the denser crust sinks and reaches the mantle, it slowly melts into magma because of the high pressure and temperature in the mantle. The magma slowly sinks until it becomes hot again and rises.

The convection current brought about by the upward (rising) movement and downward (sinking) movement of the magma causes the movement of the plates on the lithosphere. These movements results to the different plate boundaries, drifting of continents, and spreading of the seafloor. In turn, these explain the origins of volcanoes, earthquakes, and other geologic features that we observe on the surface.

Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Current Science Articles For 7th Graders full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Current Science Articles For 7th Graders eBooks, including some popular titles.

FAQs About Current Science Articles For 7th Graders Books

What is a Current Science Articles For 7th Graders PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Current Science Articles For 7th Graders PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Current Science Articles For 7th Graders PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Current Science Articles For 7th Graders PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Current Science Articles For 7th Graders PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print

restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
