Educational Research? Si Fan, Jill Fielding-Wells, 2016-07-08 What is Next in Educational Research enables the reader to peek into research at the forefront of a diverse range of education fields as it is being conducted by beginning researchers The book illustrates the extensive range of research being undertaken in education through a broad range of issues topics and methodologies that will underpin and provoke research well into the future The five sections address a range of topics including issues in design and methodology social integration language education leadership and issues in contemporary education Each chapter makes a valuable contribution to existing educational research and is a testament to the potential of these researchers to lead innovative educational research projects Both higher degree by research students and their supervisors will find this book particularly useful and interesting as it provides examples of quality research higher degree writing illustrates a variety of contemporary methodologies and supports the early publication of student work

Globalisation, Cultural Diversity and Schooling Joseph Zajda, Suzanne Majhanovich, 2024-05-22 This book analyses dominant discourses of globalisation cultural diversity and schooling The collection in this volume advance further the discussions on the phenomenon of globalisation and its far reaching effects on our world and consider cultural diversity in its broadest sense as it manifests itself in a globalised world Zajda has argued that globalisation represents a synthesis of technology ideology and organisation specifically related to border crossings of people global finance and trade IT convergence as well as cross cultural communication The reality of cultural diversity has been brought into stronger focus because of globalisation Cultural diversity always present in society is more evident today because of globalisation The ways society copes with cultural diversity have changed such that the embrace of cultural diversity as part of identity is encouraged in liberal democracies Cultural diversity as presented in this volume is seen in a broad context and includes factors such as race ethnicity gender sexual orientations socio economic status culture age and physical ability as well as a variety of beliefs and values The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation cultural diversity democracy and equality for all *Education and the UN Sustainable Development Goals* Kim Beasy, Caroline Smith, Jane Watson, 2023-11-02 This book focuses on the complex relationship between education and the Sustainable Development Goals SDGs and highlights how important context is for both critiquing and achieving the Goals though education given the critical role teachers schools and curriculum play in young people's lives Readers will find

examples of thinking and practice across the spectrum of education and training sectors both formal and informal The book adds to the increasing body of literature that recognises that education is and must be in its praxis at the heart of all the SDGs As we enter the third decade of the 21st century we have a clear understanding of the wicked and complex crises regarding the health of life on our planet and we cannot ignore the high levels of anxiety our young people are experiencing about their future Continuing in the direction of unsustainable exploitation of people and nature is no longer an option if life is to have a flourishing future The book illustrates how SDGs are supported in and by education and training showcasing the conditions necessary to ensure SDGs are fore fronted in policy reform It includes real world examples of SDGs in education and training contexts as well as novel critiques of the SDGs in regard to their privileging of anthropocentrism and neoliberalism This book is beneficial to academics researchers post graduate and tertiary students from all fields relating to education and training It is also of interest to policy developers from across disciplines and government agencies who are interested in how the SDGs relate to education
