Tracing Pages For Kids Cursive is different from print in more than just looks as it requires using the hand muscles in a different way. It involves a different part of the brain than regular writing and provides a different take on the standard alphabet. The skills imparted by learning cursive stand to improve your child's overall learning motor skill development and more. Cursive Handwriting Tracing Pages For Kids is intended for children around 7 or 8 years old, the typical age when cursive is taught. Within the pages of Cursive Handwriting Tracing Pages For Kids, you'll find clear, simple instructions. Our book provides your little one with cursive letters to trace, but it doesn't stop there with orderly instructions on how exactly to form each letter. Your child will have every opportunity to master the alphabet. Each exercise includes step-by-step instruction and clear gray lines to guide your emerging writer. Comprehensive letter tracing exercises and examples. The first few steps of learning cursive are often the most difficult. That's why Cursive Handwriting Tracing Pages For Kids includes examples for each letter to help your child pick up on tracing through lowercase and capital letters of the alphabet. They'll learn proper spacing as well as how to connect the lines for each letter together. Word tracing exercises and demonstrations. After your child has learned each letter of the alphabet, section 2 brings a new challenge: tracing entire words. Your child will learn how to properly connect letters, which is often the trickiest part about learning cursive. With an understanding of how cursive flows without lifting one's pencil, your young writer will be one step closer to being able to read sentences and write their own name in cursive. Spaces to encourage independent writing. Section 2 of Cursive Handwriting Tracing Pages For Kids also provides blank spaces with any gray tracing guides, which are intended to encourage your child to try writing the cursive words above on their own. From balloon and chair to sheep and unicorn, your child will master the punctuation and spacing of individual words as well as learn new objects and associations. Fun illustrations to accompany every exercise. Cursive Handwriting Tracing Pages For Kids includes illustrations to help your child along the way on every letter and word. Adding pictures to handwriting helps a young writer remember how to draw letters as a result of visual association: a for apple, b for bike, and so on. Children love animals and the curious objects they find in the world around them, so these illustrations also keep the activity light and fun. Free access to the digital edition. With each physical copy of Cursive Handwriting Tracing Pages For Kids comes an access code to the digital edition.
