*Digital Transformation and Global Society* Andrei V. Chugunov, Radomir Bolgov, Yury Kabanov, George Kampis, Maria Wimmer, 2016-11-24 This book constitutes the refereed proceedings of the First International Conference on Digital Transformation and Global Society DTGS 2016 held in St Petersburg Russia in June 2016 The 43 revised full papers and 15 revised short papers presented together with 3 poster papers and an invited paper were carefully reviewed and selected from 157 submissions The papers are organized in topical sections on eSociety New Social Media Studies eSociety eGovernment and eParticipation Perspectives on ICTs in Public Administration and Democracy eKnowledge ICTs in Learning and Education Management eCity ICTs for Better Urban Rural Planning and Living eHealth ICTs in Healthcare eScience Big Data Complex Calculations *Analytics for Insurance* Tony Boobier, 2016-08-01 The business guide to Big Data in insurance with practical application insight Big Data and Analytics for Insurers is the industry specific guide to creating operational effectiveness managing risk improving financials and retaining customers Written from a non IT perspective this book focusses less on the architecture and technical details instead providing practical guidance on translating analytics into target delivery The discussion examines implementation interpretation and application to show you what Big Data can do for your business with insights and examples targeted specifically to the insurance industry From fraud analytics in claims management to customer analytics to risk analytics in Solvency 2 comprehensive coverage presented in accessible language makes this guide an invaluable resource for any insurance professional The insurance industry is heavily dependent on data and the advent of Big Data and analytics represents a major advance with tremendous potential yet clear practical advice on the business side of analytics is lacking This book fills the void with concrete information on using Big Data in the context of day to day insurance operations and strategy Understand what Big Data is and what it can do Delve into Big Data s specific impact on the insurance industry Learn how advanced analytics can revolutionise the industry Bring Big Data out of IT and into strategy management marketing and more Big Data and analytics is changing business but how The majority of Big Data guides discuss data collection database administration advanced analytics and the power of Big Data but what do you actually do with it Big Data and Analytics for Insurers answers your questions in real everyday business terms tailored specifically to the insurance industry s unique needs challenges and targets **Your Customer Rules!** Bill Price, David Jaffe, 2014-11-13 What you need to know about your customers Now more than ever every interaction you have with customers is critical Customers today have unlimited information at their fingertips and can influence the purchase decisions and behaviors of millions of others With this comes a shift in the balance of power and every company must come to terms with the fact that the customer is in control Interacting with customers in the way they want is an essential business strategy and in many industries the key to business success Executives still refer to B2B and B2C business models as though companies control demand by going to customers with products and services But as Bill Price and David Jaffe authors of The

Best Service is No Service show a new business model is emerging in which the customer directs the relationship It is becoming a world of Me2B one in which the customer not the business dictates the terms of engagement In order for your business to thrive you must create positive experiences to fulfill a range of customer needs Though the mediums for customer engagement continuously evolve Price and Jaffe show that customer needs remain unchanging In Your Customer Rules they define a critical hierarchy of seven needs that your company can meet and apply as a methodology Throughout this practical guidebook Price and Jaffe share examples of companies who succeed by meeting these seven needs including Amazon Apple IKEA Nordstrom USAA Shoes of Prey Vente Privee and Yamato Transport as well as those that didn't Your Customer Rules offers tailored advice for companies at every stage from nimble startups to legacy firms with established customer service practices and everyone in between With a simple elegant solution for driving lasting value for customers Your Customer Rules is a clear guide for strengthening customer relationships and competing on more than price It is essential reading for executives at all levels business owners marketing managers and anyone who works directly with customers

**Stumbling Giants** Patricia Meredith, James L. Darroch, 2017-10-31 Winner of the 2018 Donner Prize for the Best Public Policy Book by Canadian authors Stumbling Giants by Patricia Meredith and James L Darroch presents a compelling new vision of the Canadian banking industry in which stakeholders work together to propel the country's banking system into the twenty first century Canada's big six banks survived the 2008 financial crisis by adhering to traditional banking practices which made them a safe harbour amidst the turmoil With banks earning 40 per cent return on equity from practices such as in person retail banking pressure from investors with short term interests continues to discourage technological innovation and adaptation However today's global information economy has transformed the financial lives of individuals and companies alike Meredith and Darroch argue that Canadian banks refuse to address the disruptive info tech changes that ultimately threaten their very existence The authors also set forth a cohesive set of recommendations to prepare the nation's banks for the challenges and opportunities offered by the digital age This call to action for the Canadian banking will resonate with financial sector managers policy makers and above all general readers
