The Cutters' Practical Guide to the Cutting of Ladies' Garments.. The Cutter's Practical Guide, Part 1 W. D. F. VINCENT,2025-01-22 The confidence with which this work was first introduced has been well justified by the result a very large edition having been disposed of Very rarely if ever has a work so comprehensive been published in connection with the art of cutting Though nominally a work on Juvenile Cutting it embraces nearly every garment made by tailors Besides systems for and treatises on Trousers and Veats systems for Morning Coats and Dress Coats it also deals with Military Garments Liveries and many other garments all worked out by a system which has now become well nigh universally popular a unique feature of the work being its beautifully engraved illustrations and diagrams We have had very many indications that the work is highly appreciated by all who have procured it and many testimonies might be recorded if that were necessary This Third Edition has been prepared in all its original completeness With such a work in their possession neither the inexperienced student nor the cutter in full practice should have any difficulty producing any of the garments treated and illustrated in this work

Cutters' Practical Guide to the Cutting of All Styles of Men's Garments ... F. R. Morris (Tailor.),1966

The Cutter's Practical Guide, Part 3 W. D. F. VINCENT,2025-03-14 Once again we have written our ideas on Trouser Cutting The system herein described is so simple that the veriest novice may learn it and cut smart fitting garments by it after a few hours study but at the same time embracing problems so difficult that many of them still remain unsolved We trust and believe this work will be found an advance on all our previous efforts The Essay which won the Federation Prize was our first attempt and of this the Secretary of the Federation wrote The very exhaustive nature of the first part of this elaborate essay is in itself an excellent work upon Trouser Cutting in every shape and from added to this the elaborate treatment of objects with so many excellent diagrams completes a work upon cutting that has no rival As edition after edition was sold out we revised and enlarged upon the principals there laid down and now after a lapse of fourteen years we have remodelled the system greatly improving it in certain directions simplifying it where possible and illustrating its application to a large number of styles never before treated in this way If the verdict of the trade on our first effort was a favourable one we have little doubt it will be equally appreciative of this one which not only contains the results

of the research and experience of our younger years but also the fruit of the maturer thought of added years and enlarged experience This work whilst being complete in itself and thoroughly exhausting its own theme forms part of a series of books treating of every phase of a cutter s experience by the aid of which we hope to place in the hands of the young man who aspires to a position in the cutting room a book which will supply him with information of a practical and helpful character under every circumstance of his professional life

The Pocket Edition of the 'Cutters' Practical Guide to the Cutting of All Kinds of Garments' William D. F. Vincent, **Cutters' Practical Guide to the Cutting of All Styles of Men's Garments** F. R. Morris, The Cutter's Practical Guide, Part 8 John Falconer,W. D. F. VINCENT,2025-08-04 The importance and necessity of just such a work as this on Economy in Cutting has found ample proof in the disposal of the First Edition in less than one month in a Second Edition being again exhausted and in our now being called upon to introduce a Third Such a work is bound to be popular its advantages come so closely home to every cutter and we are pleased to record that the efforts of both Author and Publisher have been so fully appreciated From no other publishing firm has emanated so many works relating to cutting fitting and practical tailoring and so much is the time and attention of cutters devoted to these features of their profession that the matter of Economy in Cutting is in many cases perhaps comparatively a secondary consideration Tis true that in the cutting of a garment saving a quarter of material is of small importance when compared with its good or bad fit But where from experience or the use of our Tailor and Cutter Reliable Model and Special Patterns the fit may be pretty well

assured even a quarter of material on each coat cut would very soon bulk to a tolerably large amount At the present time when competition runs so high and prices must be cut so fine it became forcibly impressed upon us that a work might very advantageously be entirely devoted to ECONOMY IN CUTTING We had little difficulty in selecting an author of thorough practical experience for this work Mr Falconer having devoted special attention to the matter of Economy The completeness with which Mr Falconer has done his work will be found in the fact of its containing no less than thirty six Plates illustrating different lays ranging from one to four garments on each lay or illustration The Tables describe the Plates giving the garment or garments their sizes and the quantities of material from which they can very comfortably be cut **The Cutters'**

Practical Guide to Cutting Every Kind of Garment Made by Tailors for Gentlemen William D. F. Vincent,1980 **The Cutter's Practical Guide, Part 2** W. D. F. VINCENT,2025-01-22 The Cutters Practical Guide being the present acknowledged Standard System of Cutting at the Tailor and Cutter Office and the System taught to the Students at our Academy it has in a variety of forms and adaptations been laid before the members of the tailoring trade The cordial reception it has met has induced us to develop both the System and its applications and prepare these for publication in more permanent form Part One has already appeared in which the System is adapted more particularly to Youths and Juvenile Garments A promise was then made that Part Two embracing every Style and Class of Gents Body Coats would ultimately be published The present work will be valued not only for its application to ordinary coats but by many more because it embraces many garments which in most trades are regarded special and unusual Among these we may reckon Military Naval and Livery garments with other classes of official and non official dress which the head of every respectable firm is liable to be called upon to make The work throughout will be found thoroughly practical in its mode of representing and dealing with the various styles and classes of garments Everything superfluous is studiously avoided The work is prepared for practical Cutters and for everyday use which will be greatly facilitated by the large clear type and equally clear engraving of the Plates We feel confidence in placing it in the hands of our many patrons The Cutter's Practical Guide, Part 4 W. D. F.

VINCENT,2025-03-10 The work we have now completed which will be placed before the members of an intelligent profession is essentially the outcome of practical experience in the high class livery trade But as the experience of one on so wide a topic as all kinds of Liveries must of necessity be of a limited nature we have gladly availed ourselves of a large circle of trade friends many of whom are engaged in some of the most noted Livery trades in this great City of London Many of these have materially helped in the preparation of this work for which we extend to them our hearty thanks feeling assured that the ideas and hints gained from such sources have such a practical bearing on the subject of Liveries that the value of the work has been largely enhanced thereby We have spared neither trouble nor pains to make this work as complete as possible and trust it will supply a feeling of want in tailoring establishments Cutters' Practical Guide to the Cutting of All Styles of Men's Garments, Coats, Waistcoats, Trousers, Breeches, Overcoats, and Sports and Military Garments Frederick Robert
