Blazing Angels 2 Game Guide:

The Video Games Guide Matt Fox, 2013-01-17 The Video Games Guide is the world's most comprehensive reference book on computer and video games. Presented in an A to Z format, this greatly expanded new edition spans fifty years of game design from the very earliest 1962's Spacewar through the present-day releases on the PlayStation 3, Xbox 360, Wii, and PC. Each game entry includes the year of release, the hardware it was released on, the name of the developer/publisher, a one to five star quality rating, and a descriptive review which offers fascinating nuggets of trivia, historical notes, cross-referencing with other titles, information on each game's sequels, and of course the author's views and insights into the game. In addition to the main entries and reviews, a full color gallery provides a visual timeline of gaming through the decades, and several appendices help to place nearly 3,000 games in context. Appendices include a chronology of gaming software and hardware, a list of game designers showing their main titles, results of annual video game awards, notes on sourcing video games, and a glossary of gaming terms.
