Bliss Sler Entangled Bliss:

Principles of Tantra Sir John Woodroffe, 2014-01-01 The present work is a defense of the Tantra of which Sastra the author is an adherent and a polemic undertaken in the interests of Hindu orthodoxy in its Sakta and Tantrika form against secularism on the one hand and on the other the religious eclecticism and various reforming movements of which when the book was first written the Brahmasamaj was a leading type In fact in parts the book reads like an orthodox Catholic protest against modernism and is thus interesting as showing how many fundamental principles are common to all orthodox forms of belief whether of West or of East The author of the Tantratattva on which this translation is based is a well known Tantrik Pandit preacher and secretary of the Sarvamgalasabha of Benares who knew no English His work which is written in Bengali may therefore be taken to be an accurate popular statement of modern orthodox views on the subject treated by him The word Tattva is a very comprehensive one which is by no means always easy to translate The author has rendered the title of the book as Principles of Tantra though may be it should be Subjects of Tantra The work deals with chosen topics of Tantra This however also involves a statement of certain fundamental principles which govern Sastrik teaching on the subjects dealt with and this as well as the contents of possible future volumes must be the justification for giving the book ambitious title
