

- Wear protective gloves so that you do not cut yourself. Parts that are accessible during installation may have sharp edges.
- Dimensions of the figures in mm.

ATTENTION!

Carrying the appliance by the door handle could break it. The door handle cannot support the weight of the appliance.

- Do not carry or hold the appliance by the door handle.

19.2 Appliance dimensions

You will find the dimensions of the appliance here

19.3 Installation below a worktop

Observe the installation dimensions and the installation instructions when installing below a worktop.

- To ventilate the appliance, the intermediate floor must have a ventilation cut-out.

- In combination with induction hobs, the gap between the worktop and appliance must not be sealed using additional strips.
- The worktop must be secured to the built-in unit.
- Observe any available installation instructions for the hob.

19.4 Installation in a tall unit

Observe the installation dimensions and the installation instructions when installing in a tall unit.

- To ventilate the appliance, the intermediate floors must have a ventilation cut-out.
- If the tall unit has another back panel in addition to the element back panels, this must be removed.
- Only fit the appliance up to a height which allows accessories to be easily removed.

19.5 Corner installation

Observe the installation dimensions and the installation instructions when installing in a corner.

- To ensure that the appliance door can be opened, you must take the minimum dimensions into consideration when installing in a corner. The dimension (a) is dependent on the thickness of the unit front and the handle.

19.6 Electrical connection

In order to safely connect the appliance to the electrical system, follow these instructions.

- The appliance corresponds to protection class I and must only be operated with a protective earth connection.
- The fuse protection must correspond to the power rating specified on the appliance's rating plate and to local regulations.
