

Chapter

9

Energy in a Cell

Reinforcement and Study Guide

Section 9.1 The Need for Energy

In your textbook, read about cell energy.

Use each of the terms below just once to complete the passage.

energy
ATP

phosphate
chemical bonds

adenine
work

charged
ribose

To do biological (1) work, cells require energy. A quick source of energy that cells use is the molecule (2) ATP. The (3) energy in this molecule is stored in its (4) chemical bonds. ATP is composed of a(n) (5) adenine molecule bonded to a(n) (6) ribose sugar. Three (7) charged molecules called (8) phosphate groups are attached to the sugar.

In your textbook, read about forming and breaking down ATP and the uses of cell energy.

Examine the diagram below. Then answer the questions.

9. How is energy stored and released by ATP?

Energy that is used to add a phosphate group to ADP becomes stored as a chemical bond in the resulting ATP molecule. The stored energy is released when ATP is broken down to ADP and a phosphate group.

10. How do cells use the energy released from ATP?

Cells use energy to make new molecules, maintain homeostasis, transmit nerve impulses, move, produce light, etc.

Cell Energy Review Answer Key

Audrey N. Tomera

Cell Energy Review Answer Key:

Anesthesiology Review: A Comprehensive Q&A Guide Ivan Keser, MD, Admir Hadzic, MD, PhD, The Anesthesiology Review features an unparalleled collection of 1 800 questions meticulously crafted from 320 specific topics that span the entire spectrum of anesthesiology practice Each question challenges and expands the reader's understanding ensuring a solid grasp of both fundamental concepts and advanced techniques The questions cover the entire field of Anesthesiology providing a 360 degree view of the field Access the latest published information ensuring that readers are not only preparing with comprehensive content but are also up to date with the most current standards and practices in anesthesiology Each question has been written and reviewed by NYSORA's team of top experts guaranteeing a level of precision and expertise that is unmatched A rationale for the best answer with every question enhances the learning experience allowing readers to understand not just the what but the why behind each answer fostering deeper learning and retention Anesthesiology Review is not just another question book it is the most comprehensive text available for the review of anesthesia tailored for both oral and written board examinations Its format is designed to cater to a wide range of learning preferences
