**Anthropology as Ethics** T. M. S. Evens, 2009 Anthropology as Ethics is concerned with rethinking anthropology by rethinking the nature of reality It develops the ontological implications of a defining thesis of the Manchester School that all social orders exhibit basically conflicting underlying principles Drawing especially on Continental social thought including Wittgenstein Merleau Ponty Levinas Dumont Bourdieu and others and on pre modern sources such as the Hebrew bible the Nuer the Dinka and the Azande the book mounts a radical study of the ontology of self and other in relation to dualism and nondualism It demonstrates how the self other dichotomy disguises fundamental ambiguity or nondualism thus obscuring the essentially ethical dilemmatic and sacrificial nature of all social life It also proposes a reason

other than dualist nihilist and instrumental one in which logic is seen as both inimical to and continuous with value Without embracing absolutism the book makes ambiguity and paradox the foundation of an ethical response to the pervasive anti foundationalism of much postmodern thought      **Science Books & Films** ,1989      **Student Solutions Manual and Study Guide for Serway and Jewett's Physics for Scientists and Engineers, Sixth Edition** John R.
