## **Cosmology Of Evil:**

Cosmology of Evil Kim Michaels, 2014-11-04 The origin of evil has remained a mystery for millennia often baffling thinkers philosophers and theologians They have lacked the cosmological perspective that we can only get from our universal spiritual teachers the ascended masters This book reveals with great clarity how evil originated as a state of consciousness that became embodied by beings who rebelled against the upward movement of the cosmos These fallen beings or fallen angels became convinced that it was their role to prove God wrong by controlling or destroying human beings Without understanding the misguided logic of the fallen consciousness it becomes impossible to explain the monstrous examples of evil seen on this planet from Hitler Stalin and Mao to serial killers criminals and psychopaths More importantly it is impossible to explain why some claim to be doing good but are driven by a hidden agenda You will learn Why evil has been able to hide itself from us for so long Why fallen beings have no empathy or kinship with human beings but see us as cattle that can be milked for energy Why fallen beings are so hellbent on destroying us that they will destroy themselves rather than admit they are wrong How fallen beings seek to control us through our actions emotions thoughts and sense of identity The types of evil forces found in the four octaves of the material world How we have a built in safety mechanism that can empower us to escape the influence of evil forces How you can help remove evil from earth      **Physics and Cosmology**

**Journey Back to God** Mark S.M. Scott, 2012-06-01 Journey Back to God explores Origen of Alexandria's creative complex and controversial treatment of the problem of evil It argues that his layered cosmology functions as a theodicy that deciphers deeper meaning beneath cosmic disparity Origen asks why does God create a world where some suffer more than others On the surface the unfair arrangement of the world defies theological coherence In order to defend divine justice against the charge of cosmic mismanagement Origen develops a theological cosmology that explains the ontological status and origin of evil as well as its cosmic implications Origen's theodicy hinges on the journey of the soul back to God Its themes correlate with the soul's creation fall and descent into materiality gradual purification and eventual divinization The world for Origen functions as a school and hospital for the soul where it undergoes the necessary education and purgation Origen carefully calibrates his cosmology and theology He portrays God as a compassionate and judicious teacher physician and father who employs suffering for our amelioration Journey Back to God frames the systematic study of Origen's theodicy within a broader theory of theodicy as navigation which signifies the dynamic process whereby we impute meaning to suffering It unites the logical and spiritual facets of his theodicy and situates it in its third century historical theological and philosophical context correcting the distortions that continue to plague Origen scholarship Furthermore the study clarifies his ambiguous position on universalism within the context of his eschatology Finally it assesses the cogency and contemporary relevance of Origen's theodicy highlighting the problems and prospects of his bold constructive and optimistic vision     *Black Magic and Its Complete Exposé* Laura D.
