## **Courses Offered In Nyandarua Institute Of Science And Technology:**

**The Higher Education Institutions Handbook**, 2012      The Nexus: Energy, Environment and Climate Change

Walter Leal Filho, Dinesh Surroop, 2017-10-30 This book focuses on the water energy climate nexus which can be used to improve energy security and quality of life for millions of people in developing countries. It enhances the reader's understanding of the link between energy and climate through the development of new approaches to and methods for energy generation, energy use, and climate change adaptation and resilience. By presenting case studies and research reports, the book addresses the relevant issues needed in order to analyze and successfully implement technologies in the water energy climate nexus. It focuses on the contributions of higher education institutions in terms of capacity building for energy efficiency, energy access, and energy security as they relate to climate change mitigation. The book combines results from the authors' own research with detailed analyses and the research presented lays the foundation for innovative new concepts and ideas which the authors subsequently discuss. The book will appeal to all those interested in the links between energy issues, sustainability, and climate change as it focuses on the exchange between science and technology experts as well as decision makers. It also supports students studying renewable energies and energy security while serving as a valuable reference source for researchers, professionals, practitioners, and scientists.

### **Vocationalisation of Secondary Education Revisited**

Jon Lauglo, R. Maclean, 2006-03-30 The book is a cutting edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work. The book provides concrete examples of the vocationalisation of secondary education with particular reference to the situation in Africa. The target audience for the book includes policy makers, practitioners, administrators, education planners, researchers, teachers, and teacher educators with a concern about the relationship between secondary education and education for the world of work with particular reference to technical and vocational education and training (TVET). The book appears in the Springer book series on Technical and Vocational Education and Training: Issues, Concerns, and Prospects and complements the International Handbook of Technical and Vocational Education and Training and other publications in the International Library of TVET, all of which are publications of the UNESCO UNEVOC International Centre for TVET in Bonn, Germany.
