Platforms, Power, and Friction Pawel Popiel, Krishnan Vasudevan, 2025-06-24 This edited book deconstructs the myth of frictionless digital platform expansion revealing the persistent platform frictions that shape platform economies and politics Through a series of case studies it explores how despite universal aspirations big tech s drive for global expansion and appeal is realized only through encounters with diverse local contexts It is in these frictional encounters that the exact contours of platform power and dominance are negotiated The collection examines how frictions arising in key domains like

policy platform design gig labor and platform market relations can both contest and reinforce platform power From user pushback to platform policy changes to the challenges facing platform cooperatives the case studies explore the nuanced realities of actually existing platformization illustrating how local adaptations and resistances shape expanding digital platforms services economies cultures and ideologies This volume contributes an urgent and critical perspective to platform studies foregrounding local power dynamics values and cultures that give the platform economy its actually existing forms It is essential reading for anyone seeking a deeper understanding of the complexities and contingencies in the age of global platform dominance It was originally published as a special issue of Information Communication Society **Media**
