into the world of asset protection It provides you with what you must know the basics of this means of defense It describes what you may find useful in the creation and implementation of a program designed for your needs Be reminded however that this is not a do it yourself book It is designed to be an educational resource to complement consultation with a local lawyer and the services offered by Acacia Business Solutions Realize that asset protection is complicated with legal and tax issues Also another person s program may not be applicable to your needs For those reasons any decision you make related to asset protection should not be based only upon what you read here it must be made in consultation with expert professionals *The Computer & Internet Fraud Manual* Association of Certified Fraud Examiners, Inc,2007
