**Teaching Reading in Content Areas** Harold L. Herber, 1970 By the time an elementary or secondary school student has finished a course much of what he has learned may already be outdated Clearly learning of facts cannot be the main goal of formal education Students must be prepared to understand key concepts and know how to acquire further knowledge on

their own This practical guide book for elementary and secondary school teachers is founded on two basic premises 1 Students need to be taught how to learn and 2 too few teachers know how to guide their students learning to develop content and process at the same time Many practice assumptive teaching giving assignments without adequate guidance and assuming students know how to learn the material assigned Teaching Reading in Content Areas is a guide to teachers of basic school subjects English social studies mathematics science who wish to teach learning skills along with subject matter At the same time it offers ways to modify suggested procedures The book is deliberately designed to give teachers the experiences they are encouraged to give their students to show them how to do what they are asked to do technical vocabulary is explained at beginnings of chapters Study guide materials accompanying chapters are like those to be used in content areas Ample illustrative lesson materials accompany explanations Procedures have been tested in the classroom by experienced teachers and specific guides to each of the basic subject areas English social studies mathematics and science are given A separate bibliography appears at the end of the book

*The Art of Teaching Reading* Lucy Calkins, 2001 Lucy Calkins has written a book with the goal of creating lifelong readers The Art of Teaching Reading offers educators a multifaceted reading program supported by word study guided reading book talks and other ongoing structures to produce impassioned readers Through years of research the author provides a myriad of ideas to help young readers discover their own joy of reading and love of books This text focuses on the big picture of reading instruction and explores the goals of reading programs It also provides information on comprehending and responding to text through synthesis critique writing and other effective strategies for understanding For teachers or future teachers or educators

The Ordinary Parent's Guide to Teaching Reading (The Ordinary Parent's Guide) Jessie Wise, Sara Buffington, 2004-10-17 A plain English guide to teaching phonics Every parent can teach reading no experts need apply Too many parents watch their children struggle with early reading skills and don't know how to help Phonics programs are too often complicated overpriced gimmicky and filled with obscure educationalese The Ordinary Parent's Guide to Teaching Reading cuts through the confusion giving parents a simple direct scripted guide to teaching reading from short vowels through supercalifragilisticexpialidocious This one book supplies parents with all the tools they need Over the years of her teaching career Jessie Wise has seen good reading instruction fall prey to trendy philosophies and political infighting Now she has teamed with dynamic coauthor Sara Buffington to supply parents with a clear direct phonics program a program that gives them the know how and confidence to take matters into their own hands

Leu,California State University, Sacramento,2010 A balanced curriculum in elementary schools has been a topic of controversy for many decades The standards based reform movement evolved out of this controversy Standards based reform was designed to measure students academic achievement by mandating that states implement accountability through annual assessments Then in 2002 with the enactment of the No Child Left Behind Act NCLB accountability transferred from a state wide issue to a federal issue With NCLB states are now mandated to annually assess elementary students nationwide in grades second through sixth in the content areas of reading language arts and mathematics There have been several negative effects on the elementary curriculum as a result of these mandated assessments which among others include an unbalanced curriculum and teachers being pressured into making decisions to allot more time for teaching the assessed content areas and less time for teaching the non assessed content areas history social science art and physical education Concentrating on history social science in particular research has shown that history social science is not only being taught less but is being eliminated in many elementary schools throughout the United States The result of eliminating history social science is an unbalanced curriculum which is unfair to students and teachers alike Curriculum integration is a reasonable solution My curriculum guide addresses the need for a balanced curriculum by integrating history social science and reading Project The curriculum guide is designed for the fourth grade teachers at Gold

Oak Elementary Placerville CA who use the district adopted Scott Foresman History Social Science program Our California in conjunction with the Open Court program Open Court Reading Level 4 It encourages fourth grade teachers to include history social science standards in their curriculum while they teach the mandated reading writing and oral language standards The curriculum guide provides fourth grade teachers with integrated history social science and reading lesson ideas content and activities The activities include reading video and poetry supplemental resource extensions Fourth grade teachers can use these extensions as enrichment for either introducing a topic or extending content knowledge of a unit or lesson The supplemental resource extensions create connections between history social science and reading that will engage students cognitively and help them to retain important history social science content knowledge Sources of Data This project used the fourth grade edition of Scott Foresman s Our California and Open Court s Open Court Reading Level 4 programs to create the integrated connections in the curriculum guide Searches of the ERIC database provided additional resources for research that contributed to the project Conclusions Reached The curriculum guide is designed to help fourth grade teachers deliver a balanced curriculum to their students It offers teachers a variety of instructional materials and supplemental resource extensions to assist them in meeting all their students needs Most important the curriculum guide helps teachers save time when preparing their lessons This will encourage teachers to include history social science into their curriculum and as a result will then prepare their students for history social science classes in middle school
