

## Voice activation system\*

### The concept

The voice activation system allows you to control operation of various vehicle systems without removing your hands from the steering wheel.

Most menu items on the Control Display can be voiced as commands. It is not necessary to use the controller.

The voice activation system transforms your oral commands into control signals for the selected systems and provides support in the form of instructions or questions.

The voice activation system uses a special microphone located in the area of the interior rearview mirror, refer to page 14.

### Precondition

Via iDrive, select the language in which the voice activation system is operating, so that the spoken commands can be identified. Selecting the language for iDrive, refer to page 83.

### Symbols in the Owner's Manual

-  1...1 Say the specified commands word for word.
-  1...1+ Indicates responses of the voice activation system.

### Saying commands

#### Activating voice activation system

1. Press the  button on the steering wheel.

-  This symbol on the Control Display and an acoustic signal indicate that the voice activation system is ready to receive spoken commands.

2. Say the command.  
The command appears on the Control Display.

-  This symbol appears on the Control Display when you can enter additional commands. If no further commands are possible, continue by operating the item of equipment via iDrive.

#### Terminating or canceling voice activation system

Press the  button on the steering wheel or

-  >Cancel<

In dialogs that call for a text of your choice, the procedure can only be canceled using the button on the steering wheel.

#### Possible commands

The commands available in each case depend on the menu item selected on the Control Display.

To have the available commands read aloud:

-  >Voice commands< or >Help<

For example, if "CD" is selected, the commands for operating CD/Multimedia are read aloud.
