impacts of watching violent television programs on secondary school children in Tanzania The specific objectives were to examine children s accessibility to the TV ascertain the types of violent TV programs and the time children spend watching them determine the ways in which watching violent TV programs affects their academic performance find out the impact of watching violent TV programs on their discipline and examine the role of parents in addressing the impacts of watching violent TV programs upon their children Results indicate that most secondary school children watch violent TV programs at home in the sitting rooms They spend an average of three hours per day on weekdays and seven and half hours on weekends watching movies music drama and informational programs that were identified as the most violent ones Obviously spending lots of time watching violent TV programs decreases children s academic performance and discipline This book is important because it discusses the parents role in discouraging and limiting children from watching violent TV programs and choosing appropriate TV programs for them The Holy Spirit in African Christianity Chigor Chike,2015-04-01 This book is a study of what African Christians living in Britain believe about the Holy Spirit *Good Research Guide* Martyn Denscombe,2014 Introductory book on the basics of social research It provides practical and straightforward guidance for those who need to conduct small scale research projects as part of their undergraduate postgraduate or professional studies includes new material on the use of social media in research including guidelines on the use of social networking sites more on internet research and how to run online surveys how to conduct sytematic literature reviews getting good response rates to a survey writing research reports research ethics an invaluable resource for anyone conducting social research including those in applied areas such as business studies health studies nursing education social work policy studies marketing media studies and criminology Back cover *Ethnic Minority Agency in Mainstream Education* Andrew Goodwyn,Nasreen Majid,Samson Maekele Tsegay,2025-11-25 Ethnic Minority Agency in Mainstream Education provides a comprehensive overview of the lives of BAME educational professionals in a regional environment dominated by racism both explicit and implicit *Research strategies discussed by Martyn Denscombe in his book 'The Good Research Guide for small - scale social research projects* Rene Tetzner,2006-04-09 Essay from the year 2004 in the subject English Language and Literature Studies Literature grade A University of Bedfordshire Luton Business School 4 entries in the bibliography language English abstract When we carry out surveys we can not include everyone who belongs to the research group That is why we select a portion of the group and assume this portion applies equally to others of the group Mainly two groups of research techniques are used in the social research namely probability sampling and non probability sampling To the group of probability sampling belongs random sampling systematic sampling stratified sampling quota sampling cluster sampling and multi stage sampling They rely on the idea that the researcher has some notion the chosen sample represents the whole of the selection Included in the group of non probability sampling are purpose sampling snowball sampling theoretical sampling and convenience sampling basically it means we do not have enough information for the samples to represent a particular portion Church Growth in African
