Demanding The Impossible A History Of Anarchism:

Demanding the Impossible Peter Marshall, 2012-07-10 A fascinating and comprehensive history Demanding the Impossible is a challenging and thought provoking exploration of anarchist ideas and actions from ancient times to the present day *Demanding the Impossible?* Peter H. Marshall, 1993 **From Here to There** Staughton Lynd, 2010-04-01 From Here to There collects unpublished talks and hard to find essays from legendary activist historian Staughton Lynd The first section of the Reader collects reminiscences and analyses of the 1960s A second section offers a vision of how historians might immerse themselves in popular movements while maintaining their obligation to tell the truth In the last section Lynd explores what nonviolence resistance to empire as a way of life and working class self activity might mean in the twenty first century Together they provide a sweeping overview of the life and work to date of Staughton Lynd Both a definitive introduction and further exploration it is bound to educate enlighten and inspire those new to his work and those who have been following it for decades In a wide ranging Introduction anarchist scholar Andrej Gruba i considers how Lynd s persistent concerns relate to traditional anarchism [Damned Fools In Utopia](#) Nicolas Walter, 2011-04-15 Nicolas Walter was the son of the neurologist W Grey Walter and both his grandfathers had known Peter Kropotkin and Edward Carpenter However it was the twin jolts of Suez and the Hungarian Revolution while still a student followed by participation in the resulting New Left and nuclear disarmament movement that led him to anarchism himself His personal history is recounted in two autobiographical pieces in this collection as well as the editor s introduction During the 1960s he was a militant in the British nuclear disarmament movement especially its direct action wing the Committee of 100 he was one of the Spies for Peace who revealed the State s preparations for the governance of Britain after a nuclear war he was close to the innovative Solidarity Group and was a participant in the homelessness agitation Concurrently with his impressive activism he was analyzing acutely and lucidly the history practice and theory of these intertwined movements and it is such writings including Non violent Resistance and The Spies for Peace and After that form the core of this book But there are also memorable pieces on various libertarians including the writers George Orwell Herbert Read and Alan Sillitoe the publisher C W Daniel and the maverick Guy A Aldred The Right to be Wrong is a notable polemic against laws limiting the freedom of expression Other than anarchism the passion of Walter s intellectual life was the dual cause of atheism and rationalism and the selection concludes appropriately with a fine essay on Anarchism and Religion and his moving reflections Facing Death Nicolas Walter scorned the pomp and frequent ignorance of the powerful and detested the obfuscatory prose and intellectual limitations of academia He himself wrote straightforwardly and always accessibly almost exclusively for the anarchist and freethought movements The items collected in this volume display him at his considerable best **Between Earth and Empire** John P. Clark, 2019-07-01 Between Earth and Empire focuses on the crucial position of humanity at the present moment in Earth history We are now in the midst of the Necrocene an epoch of death and mass extinction Nearing the end of the long history

of Empire and domination we are faced with the choice of either continuing the path of social and ecological disintegration or initiating a new era of social and ecological regeneration The book shows that conventional approaches to global crisis on both the right and the left have succumbed to processes of denial and disavowal either rejecting the reality of crisis entirely or substituting ineffectual but comforting gestures and images for deep systemic social transformation It is argued that a large scale social and ecological regeneration must be rooted in communities of liberation and solidarity fostering personal and group transformation so that a culture of awakening and care can emerge Between Earth and Empire explores examples of significant progress in this direction including the Zapatista movement in Chiapas the Democratic Autonomy Movement in Rojava indigenous movements in defense of the commons the solidarity economy movement and efforts to create liberated base communities and affinity groups within anarchism and other radical social movements In the end the book presents a vision of hope for social and ecological regeneration through the rebirth of a libertarian and communitarian social imaginary and the flourishing of a free cooperative community globally
