Mark Clint Prodehl, 2025-10-08 Call of Duty Black Ops 7's beta is in full swing now and there's plenty to get your head around. Each year whenever a new CoD beta comes around there's plenty to learn to get a leg up come the launch of the main game. Learning what guns you like, coming to terms with new movement techs and theorycrafting builds that will optimize your performance are key. Black Ops 7 is no different. There's plenty to learn and try here though not all of it is immediately obvious. If you're feeling a little lost we have some advice for you that should help you perform better on the battlefield. Here are our top tips and tricks in Black Ops 7 beta. Call of Duty Black Ops 7 is currently in Beta for a limited time ahead of its full launch on November 14, 2025. Take a look at our beta guides below: How to Get Into the BO7 Early Access Beta, How to Enable Secure Boot for BO7, Black Ops 7 All Unlockable Weapons in Beta, Black Ops 7 Beta Twitch Drops. One of Black Ops 7's biggest additions is a new iteration on last year's Omni movement with that feature going even further this year. Every operator is now generally faster and more than that a wall jump has been added. It's crucial to come to terms with this new mobility if you hope to improve. Try to jump in and use it as much as possible to get to terms with how it works. Just find a surface you can jump off of and jump up. This can both make you harder to shoot but also get to new vantage points. Get to terms with this movement tech and you'll already be ahead of a lot of players.
