Body Language In 40 Days Jesus Enrique Rosas, 2021-07-09 Imagine being able to SEE the emotions intentions and thoughts of everyone like words on a screen Your intuition whispers but its messages are so fleeting that you don't even have time to take them into account during a conversation For example the other person wrinkled their face for an instant Was it out of annoyance or rather something they remembered They also took a deep breath and looked away Are they disagreeing with what you said Why is it that when they say yes to you they seem to be reluctant Just as you can't learn French overnight the same goes for Body Language The difference is that when it comes to French the language doesn't come pre-programmed in your brain so learning it requires effort and time But in the case of body language it is a skill that is already inside you thanks to millions of years of evolution You just have to reactivate it The most common problem is that you want to learn in a short time what all the postures gestures attitudes voice tones distance between people facial expressions mean It's impossible No matter how hard you try that way you will not make progress rather you will get frustrated And there is another thing you need to take into account Some people are able to read your body and voice just by looking at you They may have learned it through studies or they may be the so-called naturals who have mastered it since birth The truth is that at least 1 in 10 people are able to know what you feel and what your intentions are only because your body reveals them to them without you realizing it or being able to do anything about it They just pick up on your signals I felt that for too long I call it Emotional Nakedness They use the information they get from your body to persuade you and sometimes even manipulate you If you're lucky those people who can read you won't have bad intentions But how can you be sure of that Just as important as knowing how to read the Body Language of others is knowing how to control your own It is as important as knowing how to speak Even more so because if you don't want to reveal something with words you just have to keep silent With your body you don't have that luxury So where do you start with your body language studies Here's a method with which you can learn body language step by step at your own pace and from the general to the more specific details Mastering Body Language is the means to make everyone transparent to you Sounds easy enough right The problem is that there are so many variables that it's easy to get lost trying to remember them all Did they touch their nose which hand what were they saying at the moment and why did their eyes turn to the person on their right Trying to decode Body Language is fun until you find out it's really easy to feel

overwhelmed That s why I wrote this book Absolutely all the rules you knew about Persuasion and Influence change when you master body language You will detect the intentions of people around you at a glance You will learn to detect the true sources of their emotions You will exploit the secrets of charisma to awaken your personal magnetism You ll get complete strangers to trust you in a matter of minutes and you can start right now I ll see you there Jesus Enrique Rosas The Body Language Guy
