BlackBerry Passport was released on September 2014. It is uniquely designed and may not be for everyone. It does, however, feature a long-lasting battery and a lot of storage space, which has earned it a number of high reviews. The downsides are the limited apps available and the difficulty faced when trying to operate the device one-handed. The customisations are not much when compared to its competitors, but the Passport allows you to make significant changes to suit each user and enhance their overall experience with the device.
