Board Directors and Corporate Social Responsibility S. Boubaker,D. Nguyen,2012-11-14 This volume introduces readers to recent developments in the fields of board of directors and corporate social responsibility It also provides new insights and perspectives on corporate governance practices in different countries

Boards at Work : How Directors View their Roles and Responsibilities Philip Stiles,Bernard Taylor,2001-03-29 Boards of directors are coming under increasing scrutiny in terms of their contribution in monitoring and controlling management particularly in the wake of high profile corporate frauds and failures and also their potential to add value to organizational performance through involvement in the strategy process and through building relationships with key investors Despite the importance of these issues not only to organizations but also arguably to national competitiveness the nature of board activity remains largely a black box clouded by prescriptions prejudices and half truths This book responds to calls for greater scrutiny of boards of directors with an in depth examination of directors of UK organizations drawing on the accounts of directors themselves as to their roles influence and the potential and limits to their power Much work on boards of directors has labelled the board as a rubber stamp for dominant management and non executive directors in particular have been variously described as poodles pet rocks or parsley on the fish Such accounts are rooted in assumptions of board activity that are essentially adversarial in nature and that the solution to the problem of reconciling the interests of managers with those of shareholders is to increase the checks and balances available to the board of directors The findings of this study show that boards in many cases are far more than passive rubber stamps for management and that non executives are encouraged to act as trusted advisers to the executives and the chief executive rather than solely monitors of executive activity Boards are important mechanisms in maintaining the strategic framework of the organization through setting the boundaries of organizational activity The potential of the board members in particular the non executives to fulfil such a mandate depends on a number of factors including ability willingness to engage with the organizational issues and the degree of knowledge they have relevant to the host firm Above all the degree of trust built between members of the board and between the board and key external constituencies is at the heart of effective board behaviour

Board Directors, Financial Derivatives, and Corporate Governance: The Case of Vietnam Tran Thi Hong Lien,2022-05-09 This book gives readers a look inside the boardrooms and directors minds a desirable but highly challenging task for researchers due to the lack of access to top teams in organizations This book breaks through that barrier with a mixed methods investigation of boardrooms in the emerging country of Vietnam particularly on the topic of financial derivatives Directors are the leading players within the corporate governance framework The general effectiveness of the board depends on their roles processes and competencies Given the scandals marring the history of the financial industry this book aims to tackle the question of whether board directors have the financial acumen required to handle the tricky instruments of financial derivatives through interviews with board

directors and analysis of their organizations Providing a managerial perspective of financial derivatives this distinguishes itself from more popular financial engineering books and would be a useful read for government officials board directors training organizations and scholars particularly in Vietnam

Women on Corporate Boards of Directors Susan Vinnicombe, 2009-01-01 a thorough and insightful examination of women on corporate boards of directors I recommend the book as a read for practitioners scholars educators and others having an interest in human resource management With its wealth of information *Women on Corporate Boards of Directors* is a good addition to the extant literature that should represent an affordable value for the buyer

Mark Mone Personnel Review After the first two chapters I was so absorbed I was almost reluctant to go to coffee and as other coffee addicts will know it is a rare book especially a rare academic book that can make one careless in observing the customary coffee break I found that the way this book is written helped me to reflect on much of the gender research that I am involved in currently because the questions raised are so searching and far reaching Once again the chapter authors combine brevity with thoroughness and depth in their examination of the themes which made this a very rewarding book because it takes you so far in your thinking in just 240 pages I feel energised by the debates that the book has opened up for me I have done research in this particular area but I now feel that I have explored different perspectives and new depths and I am grateful to the editors for that

Marianne Tremaine *Gender in Management: An International Journal* This timely collection of case studies and research from top academics around the world will be of tremendous value to all those engaged in bringing about greater gender diversity in corporate boardrooms

Jacey Graham Brook Graham LLP This book provides an excellent overview of contemporary international research and practice relating to women on corporate boards of directors An important lesson learnt from this book is rather than having only one or two competent and committed women on the boards of directors an ideal number of three is not only the right thing but also the bright thing to do

Why Research has documented a strong positive correlation between the share of board seats held by women and financial performance

Martin Hilb University of St Gallen Switzerland There are still common barriers that women face across many countries that keep their representation on boards of directors low and relatively unchanging I commend this excellent outstanding book to both academics and business management constituencies as well as individuals interested in serving on corporate boards The authors should be congratulated for this important contribution to the literature

Marilyn Davidson The University of Manchester UK This important new book addresses the growing international interest in women on corporate boards of directors The contributors explore the position of women on corporate boards and future trends in different countries including Australia Canada France Iceland Jordan New Zealand Norway Spain Tunisia the UK and the USA They go on to report the latest research on the experiences and different contributions made by women directors on corporate boards Issues discussed include How women directors champion difficult issues and debates How women influence boardroom behaviour The contribution of women directors human and social capital Gendered experiences
