**Dissertation and Scholarly Research:**  
**Recipes for Success: 2018 Edition** Jim Goes, Marilyn K. Simon, 2017-09-20 A Dissertation Guide for Professional Learners Doctoral education has changed dramatically over the last three decades Traditionally pursuit of a doctoral or research credential involved intense study at a large traditional research university and was reserved for those seeking careers in academia or research The process of completing doctoral level work at traditional universities usually required a commitment to full time study varied tremendously between institutions and was often somewhat mysterious Today all this has changed The emergence and growth of online education has led to a proliferation of doctoral learning possibilities for busy professionals Individuals in the industry nonprofit and education are sectors are pursuing doctoral study as a means to advance their careers increase their market value in the workplace and establish their professional stature If this sounds like you then you have come to the right place Recipes for Success is the book that will launch you on a successful quest for the doctoral degree Dissertations are very personal endeavors and accomplishments originating with problems and issues that are meaningful and important to the doctoral learner These professionals are deeply grounded in their understanding of the issues and needs of their profession Recipes build on this this understanding helping learners to discover and frame issues they are passionate about and construct a credible and influential research study around this passion While most dissertation guides focus largely or exclusively on the mechanics of writing and organization Recipes approaches dissertation development as an iterative process of thinking and self reflection that leads learners to discover what matters most to them and to their professions and enables them to frame this meaning into a research problem and purpose and to organize and execute a study design to fit and thus solve the problem and achieve the purpose From the very beginning of your doctoral journey to the ultimate achievement of degree completion this book is your guide to the process and content of dissertation and research creation In Recipes for Success we articulate a process by which you can build the pieces of a successful and influential dissertation Using a workbook approach rich in tools templates frameworks examples web integration and hard won lessons from experience Recipes provides a friendly easy to navigate process crafting issues and ideas into research and

results Based on our 40 years of collective experience in the online educational setting mentoring over 300 professional learners to success in completing their doctorates including numerous award winners we identify the most important factors for success and the traps to avoid Whether you are considering doctoral study are already in a doctoral program or are working to develop and complete your dissertation you will find Recipes for Success a key ingredient in your success as a doctoral learner Our graduates tell us that Recipes is THE book that made a difference in their doctoral career and success YOU can do it too Good luck on your doctoral journey

*Writing and Publishing a Scientific Research Paper* Subhash Chandra Parija, Vikram Kate, 2017-07-28 This book covers all essential aspects of writing scientific research articles presenting eighteen carefully selected titles that offer essential must know content on how to write high quality articles The book also addresses other rarely discussed areas of scientific writing including dealing with rejected manuscripts the reviewer's perspective as to what they expect in a scientific article plagiarism copyright issues and ethical standards in publishing scientific papers Simplicity is the book's hallmark and it aims to provide an accessible comprehensive and essential resource for those seeking guidance on how to publish their research work The importance of publishing research work cannot be overemphasized However a major limitation in publishing work in a scientific journal is the lack of information on or experience with scientific writing and publishing Young faculty and trainees who are starting their research career are in need of a comprehensive guide that provides all essential components of scientific writing and aids them in getting their research work published
