all right and a great deal more It and his subsequent books have regularly topped the bestseller charts for the last twenty years But you probably don't recognise his name That's because Grant writes under the pseudonym Lee Child My aim in opening with that story wasn't to add to the mythology of Jim Grant Lee Child or to help him sell more books He seems to be doing okay without my assistance What I wanted to emphasise was the writer's basic tools pads of paper a pencil a pencil sharpener an eraser That really is all you need And it's all writers have needed for centuries You don't need a new laptop with terabytes of disk space and monitor large enough to be seen from the Moon All you need is 3.99's worth of supplies About 5 in the US If you have a typewriter great A computer's even better But neither of those things are essential All you really need is some method of recording your thoughts A pencil and paper work fine Just ask Lee Child
