preparing the Manual a number of points have been taken into account First the Code is being implemented on a voluntary
basis To promote an appreciation of the rationale for the Code and an understanding of its fiscal transparency requirements
the Manual sets out in detail the principles and practices included in the Code However because of the complexity of fiscal
management systems the Manual does not provide comprehensive directions on how all the good practices are to be put in
place Instead it contains numerous references and website addresses that can assist with the practical implementation of the
Code Second fiscal transparency is only one aspect of good fiscal management and care is needed to distinguish fiscal
transparency from two other key aspects namely the efficiency of fiscal policy and the soundness of public finances Third
diversity of institutional backgrounds and capacity constraints to improving fiscal management are clearly recognized For
this reason the Code is not a best practice standard Rather it is a set of good practices that can be implemented by most
countries over the medium to longer term **Bulletin of the School of Education, Indiana University** Indiana
