

Chemical Bonds

Three students were talking about chemical bonds. They each had a different idea:

Janet: I think a chemical bond is a substance produced by a molecule to hold the atoms together.

Will: I think a chemical bond is an attractive force between atoms in a molecule.

Leta: I think a chemical bond is a physical part of an atom that connects it to other atoms in a molecule.

Which student do you agree with the most? _____ Provide an explanation for your answer.
