Conflict Resolution Lesson Plans:

Tools for Conflict Resolution Ellen M. O'Keefe, Mary Catherine Stewart, 2004 Have you been searching for a way to resolve conflict that doesn't involve a series of ten or more steps? Do you think that perhaps a key to conflict resolution must come from within? How can teachers and pre-service teachers help their students learn and use strategies for conflict resolution? *Tools for Conflict Resolution* is a practical method for teaching conflict resolution skills to students in grades K-12. Conflict is a part of everyone's life. It is the authors' belief that if each student is given tools for handling conflict and these tools are used each time conflict arises, that soon students become proficient conflict managers. This book begins with a chapter which introduces Peter Senge's five disciplines: Personal Mastery, Mental Models, Shared Vision, Team Building, and Systems Thinking. After reading this chapter, the reader is able to embrace the five disciplines and begin practicing the adult level. As teachers, we teach from who we are. The rest of the book is filled with actual lesson plans which are directly tied to the Multiple Intelligences Theory and are developmentally appropriate for students. Case studies, role plays, skits, literature, songs, and cooperative learning activities are the primary instructional methods used to teach students conflict resolution skills. An annotated bibliography is included to assist teachers in extending lessons. These lessons may be taught during Social Studies as a unit on character education or could be used during a guidance class. [Conflict Management Training Activities](#)
