Arthur James Wells

Connected Sociologies Theory For A Global Age:

Connected Sociologies Gurminder K. Bhambra, 2014-10-23 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com This book outlines what theory for a global age might look like positing an agenda for consideration contestation and discussion and a framework for the research led volumes that follow in the series Gurminder K Bhambra takes up the classical concerns of sociology and social theory and shows how they can be rethought through an engagement with postcolonial studies and decoloniality two of the most distinctive critical approaches of the past decades Critical Theory of Coloniality Paulo Henrique Martins, 2022-04-19 This book reveals how the critique of the domination of capitalism inaugurated by the Frankfurt School becomes pluriversal motivating the historical Critical Theory of Coloniality CTC dialogue between the Global South and the Global North CTC expresses the emergence and historical actuality of a set of intellectual fields aimed at denouncing domination and promoting emancipatory ideas at the borders of colonial capitalism The book argues that the actuality of the CTC relies on the importance of valuing theoretical and methodological pluralism in the context of the necessary redefinition of the directions of global society It reveals a plural reflection of scientific moral and aesthetic character in different areas of former planetary colonisation such as Asia Africa and America but also on the borders of Europe This book is aimed at researchers and students in the social sciences as well as in interdisciplinary studies It is attractive to those who are interested in the plural development of theoretical criticism outside the European universe and who seek to understand how capitalist power has metamorphosed with planetary coloniality Considering this book implies important reflections on topics such as development modernity tradition imperialism dependency and democracy it is interesting to specialists in development issues international relations and policymakers De-centering queer theory Bogdan Popa, 2021-12-14 De centering queer theory seeks to reorient queer theory to a different conception of bodies and sexuality derived from Eastern European Marxism The book articulates a contrast between the concept of the productive body which draws its epistemology from Soviet and avant garde theorists and Cold War gender which is defined as the social construction of the body The first part of the book concentrates on the theoretical and visual production of Eastern European Marxism which proposed an alternative version of sexuality to that of western liberalism In doing so it offers a historical angle to understand the emergence not only of an alternative epistemology but also of queer theory's vocabulary The second part of the book provides a Marxist anti capitalist archive for queer studies which often neglects to engage critically with its liberal and Cold War underpinnings On Sovereignty and Other Political Delusions Joan Cocks, 2014-10-23 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Winner of the 2015 David Easton Prize awarded by the American Political Science Association APSA Global forces are eroding the ability of states to exert sovereign control over their populations territories and borders Yet when dominated subjects across the world dream of freedom they continue to

conceive of it in sovereign terms Sovereign freedom haunts the imagination of oppressed ethnic minorities popular masses ruled by foreign powers or homegrown tyrants indigenous peoples and individuals chafing under customary or governmental restrictions On Sovereignty and Other Political Delusions draws on political theory and on two case studies the encounter between Anglo American settlers and Native American tribes and the search for Jewish sovereignty in Palestine to probe the allure of the idea of sovereign freedom and its self defeating logic It concludes by shifting its sights from political to economic sovereign power and by pursuing intimations of non sovereign freedom in the contemporary age

Democracy and Revolutionary Politics Neera Chandhoke, 2015-02-26 Democracy and political violence can hardly be considered conceptual siblings at least at first sight Democracy allows people to route their aspirations demands and expectations of the state through peaceful methods violence works outside these prescribed and institutionalized channels in public spaces in the streets in the forests and in inhospitable terrains But can committed democrats afford to ignore the fact that violence has become a routine way of doing politics in countries such as India By exploring the concept of political violence from the perspective of critical political theory Neera Chandhoke investigates its nature justification and contradictions She uses the case study of Maoist revolutionaries in India to globalize and relocate the debate alongside questions of social injustice exploitation oppression and imperfect democracies As such this is an important and much needed contribution to the dialogue surrounding revolutionary violence

Theory and the International System Charles A. McClelland, 1966 This series seeks to put basic tools for understanding politics in the hands of the student By presenting a variety of approaches to the study of political institutions ideals and behavior it hopes to enlarge his awareness of our common problems increase his ability to define and analyze them and perhaps to enhance his capacity to meet and master them Publisher

Footnotes, 2004

Sociological Abstracts, 2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers

The International Journal of Aging & Human Development, 1978

Discourse on Applied Sociology: Theoretical perspectives Samir Dasgupta, Robyn Bateman Driskell, 2007 This engaging two volume study urges a balance between theoretical and practical sociology Applied sociologists adapt theoretical knowledge to actual human situations using it to formulate social policy investigate domestic and international social problems and create a pragmatic sociology of possibility These essays emphasize the close association of applied sociology with altruism identity formation race and ethnicity They evaluate the empirical truths of sociological theories and examine their relevance for contemporary research poverty demographic issues and social policies framed in the context of globalization Each chapter of the study provides some workable guidelines for social scientists policymakers planners administrators and social activists The reader is also introduced to the sophisticated research methods employed in the social sciences Excessive theorizing is

avoided as modern crises precipitated by war terrorism anarchy and poverty are examined in practical and realistic terms
