The Focus Model B.R. Jones, 2014-07-28 With school improvement initiatives quality trumps quantity every time Today a vast array of techniques plans and initiatives purport to improve student performance But a shotgun approach trying many strategies at once without the deep focus they need to succeed always falls short The

Focus Model solves this growing problem with a method for carefully implementing research informed initiatives proven to work and getting the most out of them detailing From Standards to Learning Intentions Defining with clarity the skills your students most need now Criteria for Success Defining with clarity what it will mean for students to have mastered skills Critical formative analysis of students Taking formative assessment to a systemic level of implementation Impact Professional Learning Communities I PLCs Collaborating with colleagues so that the focus is learning for both students and the adults With The Focus Model your school and system will benefit from the truth that less is more in planning for improvement Here s a first synthesis of today s best suggestions about how we can make school improvement a reality instead of a hope A seasoned perceptive author has assembled an excellent collection of school improvement tactics that are demonstrable winners W James Popham Emeritus Professor UCLA If the US implements the Common Core Curriculum it will require a constructive alignment between the standards the teaching and the assessment Jones highlights these latter two critical parts of schooling in a way that not only makes the alignment constructive but he increases the probability of acceleration in student learning John Hattie Director Melbourne Education Research Institute Victoria Australia *Student Work and Teacher Practices in Science* Christine Y.
