Construction Identitaire Et Espace:

Construction identitaire et espace Pernet Grandjean, 2009-09-01 La question identitaire se situe au coeur des interrogations sur les sociétés contemporaines Quel rôle l'espace joue-t-il dans l'articulation des processus identitaires et quels échelons territoriaux Comment les mutations du monde contemporain influencent-elles sur le rapport identité-espace Quel est le rôle des représentations dans ce processus Quels rôles tiennent la référence au passé et la mémoire des lieux dans la construction historique Quels sont les enjeux de la production identitaire dans le contexte d'une mise en concurrence identitaire

Queer Sexualities in French and Francophone Literature and Film, 2015-07-14 The steady development of queer theory over the last two decades has provided useful analytical tools and the will to dismiss the watchdog of heteronormativity Modes of reading have evolved as this volume of FLS amply attests Following Bill Edmiston's introduction to the volume a concise and informative history of queer theory the fifteen articles reveal not surprisingly significant diversity One deals with queerness in the context of medieval writing where allegorical and euphemistic expression were understood to be irreconcilable Another treats translations in Early Modern France of an Ovidian fable that had an inconvenient lesbian dimension Rousseau's fixation on his bottom e.g. for spankings points to a queer streak while Gautier's *Mademoiselle de Maupin* enhances the theme of sexual misidentity with ornamental figures The queerness of Sand's *La Mare au diable* emerges in the course of a contrasexual reading A musicologist investigates the possibility of a lesbian esthetics of music in a work by Erik Satie while a literary scholar finds evidence of Proust's outing in Jean Santeuil Other articles address the sense of gender transformation wrought by sodomy a revised view on the writing subject in Jean Genet's fiction the queerness of heterosexuality in the works of Michel Houellebecq and recurring motifs in recent fiction produced by gay Paris Two of the articles treat activism and esthetics in film

Espaces arc-en-ciel -Identités et territoires en Afrique du Sud et en Inde GERVAIS-LAMBONY Philippe, LANDY Frédéric et OLDFIELD Sophie, 2003-10-01 Les processus liés à la phase actuelle de la mondialisation ont pour effet des repositionnement identitaires toutes les échelles Comment se traduisent-ils dans l'espace Comment est utilisé l'espace pour renforcer et justifier les appartenances identitaires ou au contraire les atténuer Autant de questions auxquelles cet ouvrage apporte des éléments de réponse travers la comparaison de deux grands pays du Sud l'Inde et l'Afrique du Sud

Discours d'Afrique Alpha Ousmane Barry, 2009 L'Afrique a connu la traite des noirs la colonisation les indépendances la mondialisation Aujourd'hui les représentations des peuples africains ont considérablement évolué En prenant en compte toutes les vicissitudes historiques qui ont marqué le continent on peut se demander comment une identité si gravement menacée ou déformée se manifeste dans le discours africain postérieur à la décolonisation En déplaçant la problématique de l'identité telle qu'elle est posée en sciences humaines et sociales d'une part et dans les études littéraires d'autre part et en articulant systématiquement cette problématique celles du discours les contributions ici rassemblées abordent la question des identités africaines sous l'angle de formes rhétoriques propres repérables dans le discours politique médiatique ou quotidien ainsi que sous l'angle d'une revendication identitaire d'ordre ethnique politique ou corporatif qui prend la forme écrite ou orale sur différentes scènes Les réflexions sur la problématique d'une identité africaine fragmentée et mouvante contenues dans cet ouvrage sont nourries par les contributions de spécialistes de plusieurs domaines tous situés dans le cadre interdisciplinaire de la première manifestation scientifique internationale organisée par le Réseau de recherche Discours d'Afrique

Building a European Public Sphere Robert Frank, 2010 The book edited by four known specialists of European history presents for the first time a

discussion among European historians on the European public sphere since the 1950s It treats the general perspective and deals also in special articles with the role played by the European Union by the Council of Europe and by national media such as television and film The volume shows that the role of the European public sphere is often underestimated and that it is gradually becoming more influential and forceful not only in politics but also in culture

Sous la direction de quatre spécialistes renommés de l'histoire européenne cet ouvrage présente de façon inédite un débat entre historiens de l'Europe sur l'espace public européen et son évolution depuis les années 1950 La question est abordée dans son ensemble mais certaines contributions traitent aussi plus spécifiquement du rôle joué par l'Union européenne par le Conseil de l'Europe et par les médias nationaux comme la télévision et le cinéma Ce volume montre que l'on a souvent sous-estimé l'espace public européen alors que son influence est de plus en plus importante tant au niveau politique que culturel

Identités Régionales Et Nationales en Europe Aux XIXe Et XXe Siècles Heinz-Gerhard Haupt, Michael G. Müller, Stuart Joseph Woolf, 1998-07-03 In late 20th century Europe both national and regional loyalties have retained a surprising strength and topicality despite the advance of supra-national integration This volume addresses some specific aspects of this phenomenon that lay at the centre of the interdisciplinary work of the first European Forum of the European University Institute in Florence during the academic year 1993-94 It aims at contributing to a better understanding of the origins and the nature of territorially based identities in Europe and it also offers some analysis of current problems arising at various levels of the relationships between regional national and international structures The contributions to this volume refer to three major fields of historical and contemporary research The study of the factors that constitute territorially based imagined communities Under what conditions can certain cultural characteristics shared by a given group such as language religious affiliation or cultural heritage acquire social and political meaning in a process of creating territorial loyalties And how do regional and national loyalties relate to other patterns of particularist group identities In examining these questions special attention is given to the concept of primordial identities and to the problem of ethnicity The analysis of the mechanisms by which particular group interests social political or cultural are translated into narratives of regional or national identity The loyalty to a community within a given territory is never merely a product of invention and of arbitrary ideological indoctrination

Re-exploring Canadian Space Jeanette M. L. den Toonder, Bettina van Hoven, 2012 A variety of productions and representations of Canadian identities are the central theme that runs through this book The different contributions explore imagined spaces by considering Canadian music poetry and

novels they engage with political space by addressing various ways in which the people of Canada have made claims to different regions in the distant and recent past and they address lived spaces and their actual and symbolic meanings It is an unusual book as it encompasses the writings by those studying the arts and literature as well as writings by social scientists and it includes both English and French speaking scholars The richness that can be found in this multitude of perspectives and approaches to exploring Canadian space is characteristic of the way in which Canadian Studies is practiced nowadays It is therefore an appropriate volume to celebrate 20 years of Canadian Studies in the Netherlands
