

# BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

by JEFF S. KRAFT/CR

**How we made the rankings:** The Report based its automaker quality scores on four key factors: (1) our tests, including owner satisfaction and safety; (2) the reliability index, which we built through more than 10 years of field testing; (3) the quality index, which is based on problems reported by owners; and (4) the value index, which is based on a 10-point survey for each brand. Reliability and quality scores are based on our 10-year field testing, and the value index is based on our 10-year survey. The value index is based on our 10-year survey. The value index is based on our 10-year survey. The value index is based on our 10-year survey.

**and vehicle ownership of its automakers** can show you if the right direction when making a new car purchase. These ratings are based on the average Overall Score, a combination of our most recent reliability, quality, performance, value, and safety scores.

**all of the models from each automaker.** The top five brands this year are the same ones as 2023, with BMW leading the pack with an 87 score, followed by Subaru (85), Porsche (84), Honda (78), and Lexus (78). This year, for both companies, a clear consistent combination of high

and low scores and very good predicted reliability. Porsche takes the third position with a score of 84. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that even high scoring brands can have some lower performing

models, so be sure to check the ratings (see page 46) for the auto you're considering. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our tests. (If the brands CR ranked this year

were recommending every model rated from worst (Jeep, Ford, Toyota, Kia, Mazda, and Audi) Single pick: You can buy and feel confident from these companies with confidence. (There are also brands that didn't have a single model recommended by CR, including

carefully when buying one of these.) To be included in the overall ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lucid, Polestar, and Ram, so they aren't included this year.
